HIGHWAY MONEY GOES IN GENERAL FUND

MINORITY IN CONGRESS MAY DELAY ACTION

Coolidge Wants to Bring Up Only Urgent Matters for Consideration

EXTRA SESSION LOOMS

Controversies Opened by Democrats Absorb Congress for Some Time

BY DAVID LAWRENCE

Copyright, 1926 by Post Pub. Co.

Washington—Already the question is being asked on Capitol hill—can the present session of congress actually get through with its work or will an extra session be forced?

The Republican leaders as well as the Coolidge administration are definitely opposed to the calling of an extra session and would prefer to force action at this session on the appropriation bills and all other matters for which the December, 1927, including tax reduction. The Democrats and insurgents are beginning to show signs of serious disagreement on this point. It is within their power so to use the time between now and next March that an extra session can be forced, if for no other reason than to get the appropriation bills passed for the use of funds after June 30 next.

MANY QUESTIONS ARISE

This maneuver has been used before, in fact the Republicans forced an extra session on President Wilson this way. No expression from the Democratic leaders has come as yet, but the various controversies dropped into the hopper by the Democrats in the last few days are sufficient to absorb congress for some time to come. Senator Walsh of Montana succeeded in forcing an inquiry into theerness of Senator Gould of Maine. The report will take several weeks to make and when presented in January or February will take time to debate. Then Senator Dill of Washington, has already precipitated a fight on the acceptance of credentials from Senator-elect Vane of Pennsylvania, and Frank Smith of Illinois.

These resolutions cannot be brushed aside, for the Democrats are determined to get something done. They feel they will either force action at the present short session or compel the calling of an extra session. Meanwhile the appropriation bills which constitute the real lever for the forcing of an extra session will not be permitted to roll through too easy and enough of them probably will be held back until it is decided whether the administration will call an extra session.

The Democrats are getting an extra session are supposed to be centered largely on the opportunity for political debate, particularly in the senate, where with a margin of one vote the Republicans would only be in nominal control. And in the months just in advance of the 1928 presidential elections, anything the Democrats can do to present Mr. Coolidge with problems on which he must take an affirmative or negative stand helps to develop the issues for the big campaign.

Things are starting in much the same way as of old—the minority party bombarding the majority with popular measures and resolutions of investigation.

Christmas Weather Hard On City's Poor Families

What delightful Christmas weather! It is for those for whom Christmas is more than just another day, but for the poor and the friendless the snow covered streets and near-zero temperatures make Christmas just that much more miserable.

The unusually early and severe winter has multiplied troubles of the city's needy and as a consequence relief organizations are having difficulty meeting the heavy drain on their resources. Much more money is required this year than ever before and for that reason more is asked of the Good Fellows, who supply the funds, than ever before.

Plan humanity dictates that those who have should be willing to give at least a little to those who haven't. For the vast majority of us Christmas is the happiest day of the year but for a certain family of a widowed mother and three children, the eldest just past 12, Christmas isn't going to mean much unless Good Fellows help them.

The mother in this family works away from home every day she possibly can to earn enough to feed the youngsters. Her income is so pitifully small, however, that it is seldom indeed the youngsters have enough to eat and this winter the youngsters haven't nearly enough clothing to keep them even reasonably warm. The house isn't the neatest place in the world but nothing more can be expected of a 12 year old girl who not only has the burden of housekeeping but also is caring for her younger brother and sister.

These children have heard of Christmas and Santa Claus and like your children they are looking forward to his visit. But there won't be any Santa Claus unless the Good Fellows help. Good Fellows can make Christmas happier and merrier for themselves by making these youngsters happy. Clip the coupon that is printed elsewhere in this paper and join the Good Fellows club. It will do you good.

SAY GERMANS SHIP ARMS TO RUSSIA, CHINA

Suspicion Disturbs Relations Between Germany and Allied Powers

Geneva—(AP)—Suspicion that Germany is permitting the shipment of war material across her border into Russia for use by the revolutionaries in China Thursday was disturbing relations between Germany and the allied powers.

The foreign ministers of the allies were hesitating to take the responsibility of substituting for inter-allied control of armaments in Germany direct jurisdiction over them by the league of nations, as has been requested by Germany.

This hesitancy was accentuated when the foreign ministers were advised by the council of ambassadors at Paris that the ambassadors and the German representatives, discussing the question of armaments with them, still were far apart.

SUSPECT SHIPMENT

It is suspected by the allies that German war material is reaching China through Russia and adding the boldness of China and virtually forming a German-Russian-Chinese collaboration.

Another obstacle in the way of an agreement is the fortification of Koenigsberg in East Prussia, on the Polish frontier. The French and Poles consider this an offensive work.

It is pointed out in league circles that Dr. Gustave Stresemann, head of the German delegation at the meeting of the league council, apparently is meeting with difficulty in obtaining a cessation of the sending into Russia of war and semi-war material, as Russia, as far as Germany is concerned, is a friendly nation.

ASK INCREASE IN TARIFF ON CHEESE

Badger Association Votes to Petition for 50 Per Cent Boost

Green Bay—(AP)—Members of the Green Bay branch of the Wisconsin Cheese Producers' association, together with all other branches of the federation, voted at their annual convention here late Friday afternoon to petition President Coolidge to increase the tariff on cheese imports by 50 per cent of its present amount.

The cheese producers are asking for the increase, it was pointed out in the petition, on the ground that some 12,000,000 pounds of Canadian cheese has been imported during the past two and a half months, depressing the price of American cheese.

E. C. Swoboda, Plymouth, general manager of the association, in his annual report declared that the federation has been operating 13 years, maintains 13 warehouses and serves 33 counties with 247 cheese factories. The federation during the past year handled 33 million pounds of cheese valued at \$7,000,000.

Hans P. Hanson, Green Bay, was re-elected director of the district, the office which he has held since its organization.

25 KILLED, 40 INJURED IN MANCHURIAN WRECK

Harkin, Manchuria—(AP)—Twenty-five persons were killed and forty injured mostly Chinese, when freight and passenger trains collided near Tsching, in Shengking, on the Southern Manchurian railway.

THREE MEN ARE SHOT IN DETROIT HOLDUP

Detroit—(AP)—One man was wounded fatally and two others shot, both perhaps fatally, by bandits who raided a restaurant and confectionery store shortly before noon here Saturday. The bandits obtained between \$3,000 and \$4,000 and escaped.

BOARD KILLS ILLEGAL LEVY FOR HIGHWAYS

But Raises Equal Sum in General Fund So It Can Be Used for Roads

Borrowing from Peter to pay Paul, the county board at its special session in the courthouse Friday afternoon repealed appropriations for highway purposes, in excess of the amount raised by a 2-mill tax, and then voted to increase the levy for the general fund an amount equivalent to the highway appropriations that it repealed. Alleged illegal levies for highway purposes totaled \$241,000 and the board voted to increase the general fund by \$240,000 making a total of \$305,000 in that fund. The purpose of this maneuver is to enable the county to carry on the highway program that it had arranged at the November session. When the money in the highway fund is exhausted the general fund will be tapped to carry on the work.

PROTEST CANADIAN LABOR IN DETROIT

Federation Says 10,000 Ontario Workmen Commute Daily to U. S. City

Detroit—(AP)—Canadians who commute to Detroit and who, labor leaders say, compete with American workmen, have come under the scrutiny of the federal government.

The government wants to know about the 10,000 Windsor, Ont., residents who are said by the Detroit Federation of Labor to commute daily to Detroit where they earn wages which the federation thinks should go to American citizens.

A protest against the commuting Canadians was lodged by the federation with Dr. P. L. Prentiss, district director of immigration, and remedial action urged. Dr. Prentiss put the matter up to Washington and Friday night Harry Hull, commissioner of immigration, ordered Dr. Prentiss to obtain detailed information about each Canadian worker who passes through the immigration office here. Labor union leaders point out that Americans are deprived of employment here by reason of the regulations permitting men and women to live in Canada and work in the United States. The objection to Canadian labor competition comes at a time when some Detroit plants are working only part time, or in partial shifts, because of seasonal slackening throwing many American workmen out of employment.

JAP EMPEROR REPORTED TO BE CRITICALLY ILL

Tokio—(AP)—Six oxygen tanks were installed Saturday in the sickroom of Emperor Yoshihito, indicating his condition is critical. Empress Sadako is at his bedside. The stricken ruler's weak pulse is causing considerable anxiety. Heart stimulants are necessary. The navy is considering dispatching a cruiser to Vancouver, B. C., to bring Prince Chichibu home ward in case he is unable to make connections with a trans-Pacific liner on his arrival there from England.

The entire nation is anxiously watching the reports from Hayama, where the emperor is confined in his villa. Holiday business already has suffered. The merchants may lose millions if New Year parties and other celebrations are halted.

MRS. CHAPLIN PLANS TO REJOIN CATHOLIC FAITH

Los Angeles—(AP)—The Times says Lita Grey Chaplin, estranged wife of Charles Chaplin, has announced her intention of returning to the Roman Catholic church, which faith, she says, she renounced when she married the film comedian. She would have her two children baptized by the Catholic church so that "they might enjoy the consolation she says she 'threw away.'"

ENGLAND MAY BAR NEWS OF DIVORCE TESTIMONY

London—(AP)—Newspapers are forbidden to publish details of divorce cases under a bill which passed its third reading in the house of commons Friday night and goes to the house of lords next Monday. As soon as the bill becomes law it will be illegal to publish witnesses' evidence or details injurious to the public morals.

Dr. Davenport, who is 102 years old was reported as displaying a pair of trim ankles in explanation of her winning a husband 47 years her junior.

But Ann Pennington, exponent of the Black Bottom dance, and advertised possessor of the shapeliest legs in the world, disagrees with the censorious physician.

"It's only in the dancing world that legs are a girl's best asset," she says.

REFUND PLAN GETS SETBACK IN CONGRESS

Republican House Leader Favors Application of Surplus on Debt

BULLETIN

Washington, D. C.—(AP)—The Republican committee on committees Saturday agreed to invite Senator Frazier, Republican Insurgent of North Dakota, to resume his place in the Republican party's councils and on committees as a straight Republican.

Washington, D. C.—(AP)—Prospects of tax legislation by the present congress received still another setback Saturday when it developed that Representative Tilson of Connecticut, the Republican house leader, favors application of the treasury surplus to reduction of the public debt.

Mr. Tilson's view is that any move to carry out the president's suggestion for a credit on next year's tax payments would pave the way for a protracted political controversy, inasmuch as Democrats have announced they would press for action on a \$33,000,000 tax reduction bill already introduced by Representative Garner of Texas, Democratic financial spokesman in the house.

MAY SHELVE HEARINGS

The announcement by Tilson indicates that hearings may not be held by the house ways means committee on a resolution designed to carry out the president's suggestions. If this extent affect plans of the Democrats, who were hopeful that consideration of the president's plan would serve as a vehicle for bringing their tax reduction measures formally before the committee.

The Geneva protocol for suppression of poison gas in warfare, now before the senate for ratification, is arousing such a controversy that some of its sponsors are considering the advisability of having it returned to the foreign relations committee.

BORAH BRINGS GAS BILL

It was brought to the floor by Chairman Borah of that committee, and he is leading the fight for ratification, while Chairman Wadsworth of the military committee, is marshalling the opposition.

Outside the senate a number of organizations and individuals have taken positive positions for or against

OLSON REWARD NOW IS ABOUT \$1,700

Erwin Knutson, Farmhand, Freed of Suspicion of Withholding Evidence

Prairie du Chien—(AP)—A farmhand freed of suspicion of withholding information, and continued efforts to raise a fund of \$5,000 as a reward, were developments Saturday in the Olsen murder case in which the state seeks Erman Olsen as the alleged slayer of his sweetheart.

Erwin Knutson, farmhand on the farm of Albert Olson, father of the slain, was questioned by District Attorney J. S. Burdell after his voluntary appearance in response to rumors that he had information concerning Olson's whereabouts that he had not disclosed. After lengthy questioning, District Attorney Laill declared he was convinced the rumors were false.

Knutson declared he was quitting the Olson farm where he has been employed for many years. After going the limit allowed by law in authorizing a \$1,000 reward for apprehension for the young college student, alleged to have beaten Clara Dorothy Olson to death last September, the members of the county board of supervisors Saturday were circulating petitions to swell the reward fund. Rewards already posted total approximately \$1,700.

The board has asked Governor Blaine to add an additional \$500 from state funds. The board members agreed with leading citizens who suggested it, that a \$5,000 reward may help considerably in bringing about the capture of Olson. During the past few weeks he has been reported apprehended in practically every section of the United States.

FOND DU LAC NOW HAS MILLION DOLLAR BUDGET

Fond du Lac—(AP)—The first million dollar budget, in the history of the city of Fond du Lac was adopted by the city commission Saturday morning, coincident with the announcement of a tax rate increase from \$3 to \$3.10 per hundred. The budget total is \$1,223,890 as compared with \$913,321 in 1925. Assessed valuations were raised during the year from \$31,411,033 to \$31,059,945. General increase in city work was given as the reason for the larger budget and higher rate.

TIRÉS OF FORGERIES; SURRENDERS TO COPS

Duluth—(AP)—"I'm tired of passing bum checks. I want to go to prison." With this statement a young man, giving his name as Roy Bennett, of Cadillac, Mich., walked into the Duluth police station Friday night and poured out a confession of check-forging activities in the Twin Cities and Duluth. He will be arraigned Saturday.

JURY MAY GET CASE MIDDLE OF NEXT WEEK

Prosecution and Defense Rest After Swift Knitting of Evidence

FALL DOESN'T TESTIFY

Sudden Termination of Defense Case is Surprise to Prosecution

Washington, D. C.—(AP)—Presentation of evidence was completed Saturday in the trial of Albert B. Fall and Edward L. Doheny on a charge of criminal conspiracy. Both prosecution and defense rested finally after a swift knitting together of the last tangled threads of evidence, leaving only the closing arguments and the judge's charge before the jury retired to consider the verdict.

It is probable that the jury men will be sent to their consultation room by the middle of next week to decide whether a punishable offense was committed when Doheny sent Fall \$100,000 in a little black bag in 1921, when Fall was interior secretary and before the Doheny oil interests received a lease on the Elk Hills oil reserve.

The attorneys for Doheny and Fall announced their readiness to send the case to the jury within a few minutes after the opening of Saturday's session of court.

FALL NOT ON STAND

They abandoned the proposal to have Fall himself take the stand as Doheny had done and explain the story of the \$100,000 that passed between the oil magnate and the then interior secretary in 1921, for Doheny's oil interests were awarded the lease to Elk Hills.

The case on behalf of Doheny himself was rested Friday and two character witnesses were called for Fall. One of them was Postmaster General S. W. Saturday. The Fall attorneys' content to rest without putting another word of evidence in the record, but the Doheny counsel secured permission to reopen their case in order to hear John McCormick the sirger, as a character witness for Doheny.

PRESENTS REBUTTAL

Then Owen J. Roberts, for the government, began the presentation of the rebuttal. It was indicated that the case would go to the jury early next week.

Sudden termination of the defense case apparently surprised the prosecution. It had been decided on in overnight conference among counsel who assessed the possible effect of several developments during Friday's testimony.

It is the defense contention that Doheny, after being told of a threat of national danger in the Pacific, entered upon the leasing arrangements as a patriotic duty and not as the result of a criminal conspiracy with Fall.

McCormack, the only defense witness, called Saturday before the case was rested, raised the full tone of his Irish tenacity in defense of the good reputation of Doheny, with whom he said he was well acquainted.

JAPANESE COMMENT

Tokio—(AP)—The Tokio Mainichi, one of the oldest newspapers in Japan commenting on the war-scare testimony in the Fall-Doheny trial now in progress at Washington, accuses the American government of "double dealing" in reference to the Washington arms limitation conference.

Referring to the testimony of Rear Admiral J. K. Robinson, then chief of navy armaments, concerning the strategic importance attached in the navy department at that time to the Pearl-Harbor, Hawaii, base as an important factor in the oil reserve leasing policy, the newspaper says:

"Since the lease was granted for the purpose of securing the navy's oil supply for an emergency in the Pacific in the same year as the Washington conference, it now becomes plain that while the American government was anxiously trying to increase its strength in the form of an oil supply."

"Whatever may be said of the navy position, there is no denying the fact that America was guilty of double dealing insofar as the spirit in which the arms limitation conference was called is concerned."

ALLEGED BANK BANDITS AGAIN ESCAPE FROM JAIL

Superior—(AP)—John Welsh, 30, and Frank Smith, 28, pals with Matthew McNeill in what was thought and attempt to rob a bank here last July, have escaped for the second time from a jail at Estherville, Iowa, police here have learned. They were being held there on a charge of slugging and robbing George Groves, wealthy retired farmer who identified McNeill, Smith and Welsh as his attackers after their arrest here this summer. Welsh and Smith escaped two months ago but were caught again. McNeill, leader of the gang that robbed the Northwestern bank of Milwaukee, is serving a 25 year term at Waupun.

NOTED DIVINE IS CHIEF SPEAKER AT PHI BETA MEETING

Dean Shailer Mathews of Chicago to Talk at Sesqui-centennial

Dean Shailer Mathews of the Divinity school of the University of Chicago will be the speaker at the principal event of the local celebration of the sesqui-centennial of Phi Beta Kappa, national honorary scholastic fraternity, at a public meeting at Lawrence conservatory at 8 o'clock Monday evening. The speaker is a Commercial Age will be the subject of his address. As editor of "The World Today" and "The Human World," Dean Mathews has exerted a wide influence in educational and religious circles. His last appearance in Appleton was several years ago when he appeared on the program of the Sunday night forum at Lawrence Memorial chapel. His talk was on "The Modern Youth Movement."

Dean Mathews has had a career as professor and dean of the Divinity school since 1894 when he went to Chicago as professor of New Testament history and interpretation. Prior to this time he had served for several years on the faculty of his alma mater, Colby college. He has been a member of Phi Beta Kappa since 1896. Next summer he will fill the pulpit of Park-ave Baptist church in New York City during the absence of its famous pastor, the Rev. Harry Emerson Fosdick.

A banquet for members of the fraternity, their wives and husbands will be given at 6:10 Monday evening at the Conway hotel. Dean Mathews will be the guest of honor at this event. Speakers at the banquet will be Prof. A. H. Weston on the Phi Beta Kappa; Prof. J. B. Connelley, Prof. John C. Lyman on "A History of the Lawrence Chapter;" and President Henry M. Wriston on "The Future of Phi Beta Kappa." Prof. William E. McPheters, president of the local chapter, will preside.

The fraternity was founded Dec. 3, 1776 at the college of William and Mary in Virginia. Lawrence college was granted a charter in 1914, the seventy-ninth of the 107 chapters organized. Among the notable members of Phi Beta Kappa are John Marshall, former chief justice of the supreme court of the United States; Daniel Webster; Emerson; Eli Whitney; John Jay, and 11 presidents of the United States, including Calvin Coolidge.

MISS SEGAL THIRD IN SPEECH CONTEST

Appleton Girl Places Among Winners in District Meet in Sheboygan

Miss Eunice Segal, representative of Appleton high school, won third place in the Fox River Valley Forensic contest at Sheboygan Saturday morning. She placed first in the district meet of Marinette, and second to Miss Madeline White of West Green Bay. Seven of the eight schools in the district were represented. Fond du Lac, East Green Bay, Sheboygan and Manitowish were not placed among the winners. Oshkosh did not enter the contest.

The Sheboygan school entertained at a tea for the contestants and their coaches after the program, and at a dance and party in the evening. Miss Segal and Miss Ruth McKennan, dramatic coach at the high school, returned to Appleton Saturday morning. Miss Segal was awarded first place in the George Dame Declamatory contest in November with her reading of Leonard Merrick's "The Doll in the Pink Silk Dress." The same selection was given at Sheboygan.

ESCAPING STEAM CAUSES DEATH OF HILBERT WORKMAN

Michael Bauer Burned at Chilton a Week Ago, Dies Here

Michael Bauer, 34, of Hilbert died at 6:30 Friday morning as a result of burns received when he was scalded by steam from a boiler at the Dorschel-Kneibke Lumber company at Chilton Saturday night, Dec. 4. Bauer with a fellow employee, Henry Steffus of Chilton, had remained after 6 o'clock to clean the boiler. The men had awaited until 10:30 in the evening and the steam gauge on the boiler registered no pressure, according to reports. Bauer climbed to the top of the boiler and Steffus who was below noticed some steam escaping from the manhole and cautioned Bauer to wait a while longer.

Steffus bent down to turn a faucet of water and Bauer kicked at the plug holding the manhole. The cover was released and a charge of hot steam enveloped Bauer. He was thrown to the floor and was badly burned about the head, back and legs. He was taken to St. Elizabeth hospital at Appleton. Steffus was uninjured.

Funeral services for Bauer will be held at 10:30 Tuesday morning from the home at Hilbert and at St. John Catholic church with the Rev. Father Ruppold in charge. Interment will be made at Hilbert.

Survivors are his parents, Mr. and Mrs. George Bauer of Hilbert, three sisters, Mrs. Michael Thell, Margaret and Miss Lena Keller of Hilbert and four brothers, George and Theodore of Hilbert, Joseph of New Holstein and Anton of Milwaukee.

TWO DRUNKS FINED \$10 EACH BY JUDGE BERG

Two persons Saturday morning pleaded guilty to charges of drunkenness before Judge Theodore Berg in municipal court and were assessed fines of \$10 and costs each. They were August Willhouse and Ralph Noonan, both of Kaukauna. The former was arrested on the Plank-rd and the latter in the city of Kaukauna. Both arrests were made by Chief of Police McCarthy.

Scouts Take Hike

Troop 5 of All Saints Episcopal church and Troop 12 of Trinity Lutheran church will hold a joint hike Sunday afternoon, leaving the Trinity church at 1:15. The troops will take part in outdoor Scout work and tests and instructions on winter hikes. Tom Darling, scoutmaster of Troop 12, and Roy Darling, his brother, assistant scoutmaster of troop 5, will have charge of the hike.

PUBLIC UTILITY TAXES FOR CITY EXCEED \$50,000

Appleton Receives Check for \$50,813.43 as Traction Company Tax

A check for \$50,813.43, representing the city's share of the public utility tax paid by the Wisconsin Traction, Light, Heat and Power Co., was received Friday morning by Fred E. Bachman, city treasurer, from the state treasury department. This is an increase of almost \$3,000 over last year when the city received \$47,876.85 from this source, according to records at the city treasurer's office. This tax has been increasing regularly for the past few years, his records show.

Another check for \$41.28 was received as Appleton's share of the tax paid by The Milwaukee Electric Railway and Light Co., but why the city should share in the tax of this corporation appears to be somewhat of a mystery. Neither city officials nor officials at the traction company could account for it Friday morning.

All of the public utility tax received by Appleton is expended for city purposes only, but this is not true in municipalities in all counties. In the 1925 session of the legislature two bills were introduced providing for distribution of these taxes among school districts of certain towns, cities and villages among school districts of certain towns, cities and villages receiving taxes from the state treasurer on the basis of utility property located in such towns, cities and villages. As a consequence, districts in counties having a population of over \$40,000 and not over \$50,000 are not privileged to distribute anything to school districts, the Wisconsin Tax commission points out in a letter to Mr. Bachman.

The letter quotes the laws as follows: Chapter 441 of the Laws of 1925 reads in part: "The amount of tax received by any town in any county having a population of 550,000 or more the state treasurer shall apportion of any street railway, light, heat and power company, or conservation company may be apportioned as follows, if the town board of any such town shall by resolution so determine: 80 per cent shall be retained by the town treasurer and the remaining 20 per cent shall be immediately apportioned to various school districts or parts of school districts within said town on the basis of the last school census by the town board."

Chapter 423 of the Laws of 1925 reads in part: "In all counties having a population of 50,000 or less, 50 per cent of the amount of taxes received by any town or village from the state treasurer on account of the assessment of any street railway, light, heat, power or conservation company shall be retained by the treasurer thereof for general town or village purposes and the remaining 50 per cent shall be apportioned by the town board, board of village trustees or the village school district or part of school districts, in which the property of such company is located, in proportion to the amount which the property of such company within each school district bears to the total valuation of the property of such company in the town or village or part thereof, provided, that no such receive more than the actual cost of operation of such district shall in any event receive more than the actual cost of operation and maintaining its school."

SLEIGHRIDE IS PART OF DRIVE TO GET MEMBERS

The Olive Branch Walther league of Mt. Olive Lutheran church will give a sleighride party at 6:30 Sunday evening to the home of Edward Manter of Kimberly. The affair will be a hard time party and will be for members and friends of the Walther league.

The party will be given in connection with a membership campaign which is being conducted by the young people. The society is divided into two teams, the Greens and the Whites, colors of the Olive branch. The campaign is to close at the business meeting next Tuesday evening, Dec. 14, when the losing team will entertain the winners at a Christmas banquet. Election of officers for the coming year also will take place at the meeting Tuesday night.

The sleighride party will be conducted by members of the White team with Helen Perry and Arthur Kahler chairman of the committee.

WILL URGE COUNCIL TO PURCHASE SNOW DIGGER

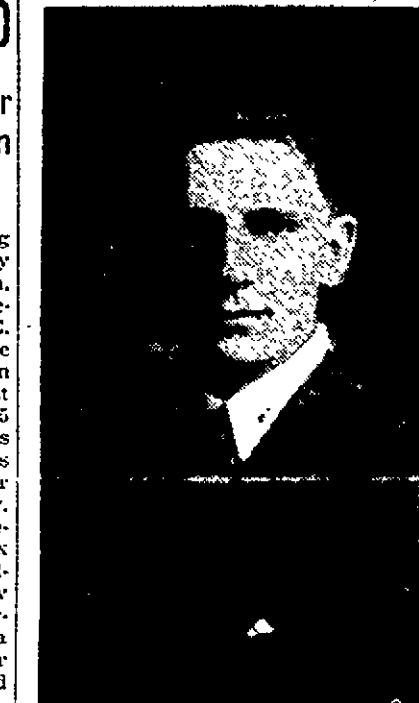

A recommendation to advertise for bids for a snow digger was prepared by the streets and bridges committee at a meeting Friday afternoon. The recommendation will be presented to the common council at the next meeting of that body.

Congregational Meeting
Election of officers of Mount Olive Lutheran church will take place at the annual meeting of the congregation at 2 o'clock Sunday afternoon at the church. Reports of the last year's work also will be made.

LAWRENCE MAN SEEKS RHODES SCHOLARSHIP

HARRY SNYDER

Harry Snyder, of Farmington, Minn., a senior at Lawrence college, was in Madison Saturday to apply for a Rhodes scholarship at Oxford university, England, for three years starting in October, 1927. Preliminary applications were made in October and elections were to be held Saturday.

Mr. Snyder is president of the All-College club, of the college Y. M. C. A. and has been active in several other organizations on the campus.

Rhodes scholarships are tenable for three years and pay a stipend of 400 pounds, or about \$2,000 a year. Candidates are appointed without examination on the basis of the records made in school and college.

L. Keevil Larsen of Neenah, was a Rhodes scholar from Lawrence and Wisconsin elected in 1922.

STREETS TO BE CLEANED OF SNOW IN FEW DAYS

Snow will be removed from practically all the principal thoroughfares of the city within four days, according to Robert F. Hackworthy, street commissioner. Although every available facility of the street department has been put into use since the snow storm to make streets as passable as possible, heavy traffic and presence of cars along curbs has hindered the work, he indicated.

Approximately 50 additional men have been put to work on the streets, and every available truck is being used to carry away snow as rapidly as the trucks can be filled by the shovel brigades.

Snow between the curbs and the center of College-ave was removed Saturday morning in the business district.

Farmers have appropriated a jail in Lavaca county, Tex., since it has been without prisoners for a long time, and are using it, as a cotton storage warehouse.

MENASHA SCOUTING LEADERS ADOPT NEW EXAMINATION PLAN

Court of Honor Too Clumsy and Inefficient, Scoutmasters Decide

New methods of conducting a court of honor so that the work can be completed quicker and easier were discussed at the first of a series of conferences for Neenah and Menasha Scoutmasters of the Twin Cities and P. O. Keicher, valley scout executive attended the meeting.

Plans for the remainder of the conference series were made. It was decided to hold meetings every two months to discuss Boy Scout problems. The next session will be held in February.

The court of honor system for the two cities was revised when the scoutmasters decided that the present system is cumbersome. Scoutmasters lack responsibility and the troop committees take little or no active part in troop affairs or scout training. It was pointed out by critics of the system.

Under the new system, tenderfoot tests will be given by scoutmasters and second class tests also will be passed with scoutmaster's endorsement. Investigation for both tenderfoot and second class scouts will be made by the scoutmaster and the troop committee. First class examinations will be completed by the scoutmaster and then reported to headquarters. Official examination will be made by the executive and court of honor and their review will include a quiz on tenderfoot and second class work.

LIST EXAMINERS
An approved list of examiners will be prepared and the application for examination must include the signature of one of these men, showing that the work has been completed under the supervision of a responsible man. The faults of the old court of honor system were discovered a few weeks ago when so many boys applied for examination that the court could not complete the required tests.

Mr. Keicher talked on Running a Troop, saying that there is only one correct method, the Boy Scout patrol. The patrol is the boy gang with a gang leader. He explained patrol methods, patrol leaders, and the importance of patrol leader conferences and training.

The executive also spoke on drill, emphasizing the need for definite drill arrangement and uniformity. Outside activities of scouting were discussed and a list of reference books on craft work, archery, bird houses and junior engineering were recommended to the scoutmasters by Mr. Keicher.

12 Boys on Hike

Approximately a dozen boys of Appleton took advantage of the invitation of the boys' department of the Y. M. C. A. Saturday to participate in a ski hike. The boys left the association at 11 o'clock and returned late in the afternoon after a hike through the hills around the city. Dinners were "served" on the hike. William Meyer was in charge.

NO SUNDAY COZY

No cozy will be held at the Appleton Women's club Sunday afternoon because of the approaching holidays and the activity connected with them. Miss Agnes Vanneman was to have charge of the program.

DON'T TRY TO GET FAR FROM HOME WITH OLD BUS ON SUNDAY

Few Highways Are in Any Condition for Travel, Auto-ists Say

Reports from various parts of the country indicate that travel to any point outside the city within a radius of 10 miles, with the exception of Highway 15 to Neenah and Menasha and Highway 26 to New London, is extremely difficult. The wind Thursday and Friday drifted the snow and blocked most of the roads.

The highway between Kaukauna and Appleton is in fine shape but travel on Highway 15 from there to Green Bay is said to be poor. Northern Transportation trucks, busses and some few salesmen were making the trip to Green Bay Saturday, however. The road between Appleton and Neenah is in good shape and reports indicate that travel south beyond Neenah, as far as Milwaukee is fair. Milwaukee busses and transportation companies were still making daily trips Saturday.

Highway 18 between Kaukauna and Manitowish is closed due to snow drifts. Although there has been a little travel between Kaukauna and Hollandtown, bus lines between Manitowish and Appleton have temporarily abandoned the route until the roads are opened.

Several milk trucks from Nichols attempted to make the trip to Black Creek on Friday but were forced to turn back after they were off three miles away from their destination. Huge snow drifts blocked them.

Many cars were stalled in the drifts on Highway 47 north of Mackville on Friday. The road between Mackville and Appleton was open although the driving was poor. Reports from two corners indicated that farmers were plowing the road Saturday and Highway 47 would be open to that point Sunday.

Busses were operating between New London and Appleton on Highway 26 without much difficulty. Traffic is possible although the roads are said to be in poor condition. Waupaca busses were operating Saturday.

BAND EQUIPMENT TO BE INSPECTED BY OFFICER

Capt. James H. Carrier, Stevens Point, a regular army officer in the service of the Wisconsin property department, will inspect federal property of the 120th Field Artillery band Monday evening. The inspection will be held in the band rooms.

Members of Co. D, 127th Infantry, Wisconsin National guard are preparing for gallery work with pistols which will be started in the next few weeks at Army G range. The company also expects to take part in a radio guard mount later in the winter.

More Value than the Price Suggests

In the year just drawing to a close the price of Dodge Brothers Motor Cars was materially lowered.

Yet during this period more important improvements were incorporated than in any year in Dodge Brothers history. Advances were made in engineering and body designs. The cars possess a greater degree of smoothness, silence and ease. They are more comfortable, more beautiful.

Current prices — made possible, of course, by constantly mounting sales — are therefore not an obvious measure of value. Prices, in fact, have never told the full story of Dodge Brothers dependability and basic worth.

But now, more than ever before, there is far more value than the price suggests.

500 VOLUMES ARE ISSUED BY COUNTY BRANCH OF LIBRARY

Circulation Is Distributed Over Stations at Dale, Freedom and Shiocton

More than 500 volumes have been circulated by the Outagamie-co branch of the Appleton public library since it was organized several months ago, according to the report of Miss Florence C. Day, city librarian. The circulation was distributed over three stations at Dale, Freedom and Shiocton with 222, 183 and 155 volumes respectively.

New books will be added to the libraries this year with the money appropriated by the Outagamie-co board at its full session. A sum of \$500 was granted to be expended by the city library for books for the county stations. The books are purchased by and for the county at the discretion of Miss Day. Services of the city library are given to the county free of charge including the clerical work, selection, and distribution to the stations. These are located in stores in the three villages. When the group at one station has been read by the borrowers, the selections are shifted from one station to the other.

Every county resident is privileged to come to the city library to borrow books, Miss Day said, but the county stations were established for the greater convenience of those who did not want to go so far for books. There are approximately 500 volumes in the county branch, it was said.

'SHO-FLY' POPULAR TOY WITH KIDDIES

Made by Appleton Toy and Furniture Company; Have Wide Market

Small children's chairs and "sho-flys" made by the Appleton Toy and Furniture Co., are being exhibited in the east show window of the Pettibone-Peabody Co. annex on N. Appleton-st. Chairs have been a specialty of the company since its organization and they probably would be found in every state and practically every city in the United States. H. L. Post, merchandise manager of the Pettibone-Peabody Co., said.

Rockers and straight-backed varieties of chairs are shown. They are painted in the bright popular red, and in grey, ivory and other colors. This year, the styles have been slightly changed with the backs narrower and more graceful. Little girl's rockers have wicker arms and backs.

The "sho-fly" too is one of the older lines of the company. Several types are shown: horses with black flowing manes, birds with yellow beaks, on those designed for younger children, and ducks are common varieties. The "sho-fly" consists of a small seat balanced between high sides cut in the shape of an animal or bird. It is built on broad rockers, which operate in a wooden frame. Children can rock and play without danger of falling, it is said.

INSPECTOR SPENDS TWO DAYS IN COUNTY SCHOOLS

Maybelle Bush, state inspector of elementary grades and practice departments of training schools finished a two day inspection of rural institutions in Outagamie-co late Thursday. It was reported by County Superintendent A. G. Meating. Miss Bush's formal report will be made in the near future, it was stated. Most of the inspection was devoted to the rural training school at Kaukauna and to schools there.

LABOR COUNCIL WON'T SPONSOR CIRCUS HERE

The offer of the Ross Amusement Co., Rockford, Ill., a western indoor circus, to show here sometime this winter under auspices of the Appleton Trades and Labor council, was refused by that organization at its meeting Wednesday evening. The committee's report on the controversy between the city building inspector and H. A. Noffke, local contractor, was read to the council. Officers will be elected at the next meeting.

SCHOOL BANK WORKER HERE TO AID TEACHERS

Miss Ruth Russell of the service department of Thrift, Inc., school savings system used in the Appleton public schools, was in Appleton Friday to establish the method in the Jefferson and Washington grade schools. These schools have banked individually in other years, but have now entered the uniform system used by all of the other public schools.

The representative also will visit the schools to help the teachers who are in charge of the banks. The company sends one of its employees to each of the cities using this system one or two times each year.

BLAME CONDITIONS IN HOME FOR GIRL'S UNSAVORY CONDUCT

Court Punishes Mother for Not Making Daughter Behave

Two girls of school age have been taken to court by the city trustee officer, J. G. Pfeil within the past week on charges of delinquency. In one case the mother was held responsible by Judge Theodore H. Berg of the municipal court, and in the other the girl, formerly paroled, was sentenced to the Industrial school for Girls in Milwaukee by Judge Fred V. Heinemann of the juvenile court.

In one instance the girl and her mother were examined by the judge and it was found that home conditions were not favorable, and the girl was not responsible for her conduct. The daughter had not been working or attending school but was living home to help with the housework. A fine of \$5 and costs or five days in the city jail was imposed on the mother, and she was ordered to send the girl to school for at least one day a week.

Home conditions were not good in the case of the other girl, aged 17 years, it was found. She and her mother had been boarding and the parent was said to have allowed the girl unwarranted behavior. Ten days before she had been paroled by Judge Heinemann, but no improvement in conduct was reported. On Saturday she was sent to the industrial school where she will remain until she is 21 years of age.

SHERIFF DON'T WANT TO SPOIL CHRISTMAS CHEER

Acting on the theory that even persons in debt have a right to a Christmas untroubled through legal action against them, Sheriff Peter G. Schwartz has requested attorneys not to ask his office to serve any more garnishment actions until after the holiday season.

"There are 11 other months of the year in which to collect bad debts and it would seem that December could be eliminated," the sheriff declared. Unofficially it was brought out that the courts here favor the sheriff's attitude.

ELECT TRUSTEE
A. H. Anderson, Antigo, was elected trustee for John Servi, Deerbrook garage man, at the first meeting of creditors held Wednesday afternoon at the office of C. L. Behrke, referee in bankruptcy. Mr. Anderson was bonded for \$1,000. H. A. Kimber, Clyde Van Dorn and John Benshek, all of Langlade-co, were appointed appraisers.

Continued brisk demand for Dodge Brothers products is evidenced by the retail delivery record established during the two weeks ended November 13th when Dodge Brothers Dealers in the United States and Canada delivered at retail 7,052 new passenger cars and trucks a gain of 32.2 per cent over the total for the corresponding period last year.

Stocks of cars in Dealers hands and in transit on November 13th were substantially lower than a week ago and are only 20.3 per cent larger than on November 14th last year. The number of used cars in Dealers hands on November 6th, the last record compiled, was only 32.1 per cent larger than a year ago. These increases are relatively small in the face of an increase of more than 35 per cent in retail deliveries by Dodge Brothers in United States and Canada during the first ten months of this year over the total for the first ten months of last year. adv.

New Plants And Flowers For Christmas Decoration

Christmas plants and flowers in old and new varieties are on display at the florists' shops and many have been ordered for the holiday season, merchants reported. Holly, probably the oldest of the Christmas natural decorations, has not yet appeared, but will be seen in a week or so, it was learned.

Small ground pines dyed a deep green shade are among the new types of centerpiece plants. They are only about six inches high and are planted in small flower pots. The natural lighter color of the pine is prepared to make more vivid decorations. Natural pine and cactus is used for attractive window wreaths, the red of the rusens taking the color place of the holly berries in these wreaths.

Jungle flowers from Africa will be popular during the holiday season both for their gay colored blossoms and their newness to this country. Their stems padded with grey leaves provide a more nearly like the common weed, the mullein stalk, than any other plant growing in the temperate zones. Small bunches of deep rose colored ball-like flowers are half hidden in the thick furry leaves. The blossoms are similar to the so-called straw flowers used through the winter.

Jerusalem cherries with both red and orange blossoms will be as popular as in other years, it was predicted. The red variety probably will be sold in greater numbers, one florist said, as its bright color appeals to more people at Christmas time. Too, many believe that the orange cherries are the same type not yet ripened, and seek the "ripe" variety. But they are distinct sweets, it was said the yellow never becomes red.

Assorted plants potted in baskets will make Christmas gifts this year as they did last. Cyclamen and ferns, or Jerusalem cherries and ferns, and other combinations will be used in rustic baskets. Other flowers popular

TWO GRAND CHUTE ROAD DISTRICTS PLOW HIGHWAYS

Two Grand Chute districts opened their roads territory Thursday, according to rural carriers here. The Frank Mueller district, the John Haferbecker district were the first to open highways.

Graders were used by the farmers to open the roads and a surface of about four inches was allowed to remain so that sleds could travel more easily.

Road tax money that was not used during the past year for improvements because of inclement weather, is now being applied to keep the roads open. Various sections of the Town Line County Line, Medina and Greenville roads also have been opened.

at the holiday time are begonia and primroses. These too are of the potted plant variety.

Wilson School Pupils Work On Yule Program

Two Christmas programs have been planned at the Wilson junior high school to be given Tuesday and Thursday, Dec. 13, 14 and 16 for the students, parents and friends of the school. The Christmas festival of girls from the physical education classes of the Roosevelt and Wilson junior high schools will be held on Monday afternoon for the students, and Tuesday evening for parents and friends. The two showings have been arranged so there will be no unpleasant crowding at the evening performance, it was said. Students will give the program at Roosevelt school Thursday evening. Miss Edith Small, physical education instructor at Wilson school, and Miss Alice Wohl of Roosevelt school, planned and coached the festival and the girls in the classes have practiced for several weeks. It will be arranged like the old Christmas festivals given when the holiday was a revel. Dances, songs and recitations will be included. Proceeds from the Tuesday performance will be put into a fund for a system of simple awards for their contests and for other aids in their work.

Miss Elsa Breitenbach, faculty sponsor of the Wilson Dramatic club, is in charge of the program by that organization to be held Thursday afternoon. A dialogue, a Christmas play called "Santa's Busy Day," a solo dance, and a cantata, "The Christmas Spirit" have been arranged.

Letters were sent to parents of school students telling them of the coming events and asking them to bring their friends with them.

APPLETON MAN GETS PATENT FOR COUNTER

Oscar J. Boldt, Appleton contractor, was granted a patent by the commissioner of patents in Washington, D. C., last week for combination display and wrapping counter, according to word received here. Mr. Boldt has been working on this invention for the last two years and will manufacture the counters.

The counter is an improvement over the old type of grocer's counter which was made of wood with a front of glass panels in which staple articles were placed for display. It is known as the Boldt Sanitary Grocery Counter and allows full visibility from the top and front, because both are of plate glass, and gives the maximum display of goods, without complicated display panels of the old type counter.

A tilting top is provided for filling the display sections of the counter and a sliding door is provided in the rear of each section for orders.

"There is a best in pianos, but it is made the best at a workman's bench, and not by the lips of eloquent spokesmen."

Who Shall Say Which is the World's Greatest Piano?

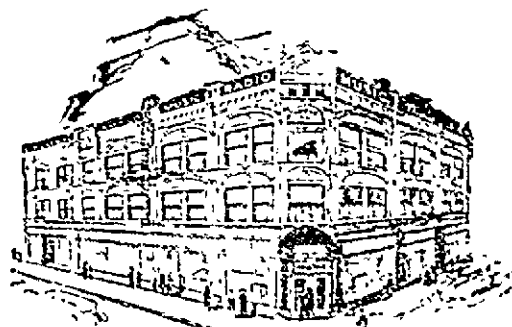

WHO shall decide it? Certainly not any piano maker nor piano dealer nor even the great musicians for they could never agree. They are divided between three or four fine instruments. A long and glittering list of musical stars love the Chickering. That is taken as a matter of course, as it should be, for any fine pianoforte. On certain noteworthy occasions we take pride in referring to them. But they alone do not make the Chickering the best. After all, your piano is going into your home not on a concert stage. All pianos, without exception, are modeled after the Chickering. But that alone does not prove it to be the best. It is so easy to say "Used by the World's Greatest Artists" "supreme" and so on. But it doesn't prove anything, does it? There is a best in pianos, but it is made the best at a workman's bench and not by the lips of an eloquent spokesman. Hear the world's premier pianos. Among them there are differences recent differences of vast importance. Take nothing for granted. There is certain to be one instrument that will thrill you the most. That's the one you should have. For the greatest piano in the world is the one that you like best.

CHRISTMAS TREE PRICES MAY RISE

Buyer Predicts Increase as Result of Impassable Northern Roads

"Christmas trees will be very scarce this year and the prices will soar," is the opinion of a buyer who recently passed through Appleton after failing to bring through a load of trees from the northern part of the state. After he had the big truck loaded he spent approximately \$50 in paying

Because of impassable roads in the northern part of the state and the great difficulty of securing the trees, this buyer is of the opinion that Christmas trees will be very scarce in a short time, and as soon as the annual demand for trees starts, the prices will reach a second high mark.

GOVERNMENT CROP REPORTS
The Wisconsin Convention of the American Society of Equity has approved a resolution asking for the discontinuance of the federal crop estimates on the ground that they are of no value to anyone but speculators. The resolution condemns the reports as "detrimental to farmers," and as "only an aid to speculators."

It is difficult to see how government reports, if accurate, can be of benefit to speculators and damaging to farmers. It would seem that speculation, gambling, and other get rich quick schemes thrive on a lack of information, or upon information in the hands of a few carefully guarded from those to be fleeced. We think if the crop estimates are discontinued the only persons who will be without information will be the farmers, for certainly the speculators will arrange to secure their own crop estimates as they have always done.

The crop estimates are issued in time for the farmers to gauge their planting to some extent at least, thus eliminating much of the gamble from farming. The argument for the crop estimate is contained in the annual report of W. M. Jardine, secretary of agriculture, from which the following paragraphs are extracted:

A demand among farmers for more complete and up-to-date information led the department of agriculture in 1923 to begin preparing and issuing statements on the outlook for the production and marketing of the principal commodities. These reports met with such a favorable reception that the work has been expanded and made a regular part of the program of the department. The general reports of the department and the more localized reports of the state colleges are made available to producers by all known means of dissemination. Two hundred thousand copies of the report on the outlook for 1926 were mailed direct to farmer correspondents of the department within 10 days of completion of the report. Advance copies were sent to all of the farm papers in the country and condensed statements were furnished to the press and transmitted over the radio.

The extension forces of the state colleges disseminate the information through the publications and through local meetings of farmers, at which the reports were presented and their application to the particular locality discussed. These reports have been of great value to cooperative marketing associations. Many of these associations have been active in disseminating the reports among their members.

The general report issued in February is followed by a report on farmers' intentions to plant spring crops. This is immediately followed by an opportunity to make adjustments in their plans should there be a tendency to over plant and plant particular crops. A report on intentions to plant fall crops is issued in August. Frequent surveys of breeding intentions with regard to specific classes of livestock are giving producers more information upon which to base their plans.

The only argument against crop reporting that will appeal to a majority of thinking people is, we think, an attack upon the accuracy of the information given out. This is not one of the principal arguments of the Society of Equity, as we understand it, but the report of the secretary of agriculture on this phase of the subject is never-the-less pertinent:

Considering the recent development of the work and the lack of complete information on many points that must be considered, the conclusions presented in the outlook statements have been remarkably accurate. In even the earlier reports nearly 90 per cent of the outlook statements on individual commodities turned out to be correct, and in the 1926 report subsequent events proved that more than 95 per cent of the statements were correct.

We are inclined to the belief that the statement of the Society of Equity is true, but we disagree upon the statement that the suppression of the reports is the cure for the situation.

Speculators profited by the reports because they read them and acted intelligently upon the information gained by their reading. We think that the situation will be greatly improved if there is an even wider dissemination of the government crop outlook reports and a more general reading of the reports by the farmers. Certainly nothing is to be gained by the suppression of information unless it be to foster gambling and deceit. There is no gambling game in which all of the cards are laid upon the table face up.

DICTATORIAL CENSORSHIP
Marshal Pilsudski, dictator of Poland, has issued two decrees for approval by the Polish diet, which if enacted and enforced will effectually suppress the publication of political news and will even prohibit political conversation except in glorification of the government. Published or oral opposition to the premier's dictatorial regime is forbidden under penalty of fine and imprisonment. If a newspaper attacks state officials the responsible member of the staff is liable to a year's imprisonment or \$2,000 fine. Anyone criticizing high government officials is liable to prosecution, even if the injured party files no charges, and a person criticizing the president may not plead the truth as justification.

This is typical of the extremes to which dictatorships go to uphold their arbitrary power and to crush popular opposition. It is what the Russian soviet did, and still does, and it is what Mussolini is doing in Italy. Dictatorships have their rightful place in the European scheme of government, when in grave emergencies they are the only means of saving a country from civil war and chaos, but when they have to go to such lengths to maintain themselves it is evident they are abusing their authority and fear the will of the people. They can lead only to ruinous consequences in the end. They are not the avenue through which the nations of Europe are to be led to stable and representative government. They illustrate the wide gulf politically that still exists between old world conceptions of government and those of free America. There are plenty of imperfections in our own political system, but it is so far ahead of that which prevails in Europe, with the possible exception of Great Britain, that we should congratulate ourselves on its successful operation for nearly a century and a half.

ANIMAL TUBERCULOSIS
The progress made in recent years against the ravages of animal tuberculosis has been remarkable. This maldy represented an immense money loss each year to the American farmer, and, in addition was a menace to the health of the country. Even now, despite the progress already made, it would take \$100,000,000 to wipe out animal tuberculosis.

Great, however, as is that cost, the amount of money is small compared to the loss that would be suffered if money were not available for the present campaign against the disease. In 1917 the disease was causing a loss of about \$40,000,000 a year and if allowed to continue and spread at the rate it was then going, no one could estimate what the eventual loss would have been. By now the yearly loss would have probably exceeded the total of the amount necessary to wipe it completely out.

The participation of the federal government in the work of combatting this cattle disease has been eminently right and proper. Disease observes no state boundaries and wherever such a situation exists it is only right and proper for the federal authorities to step in and work with the various states to fight it. It will be necessary from time to time for the federal government to appropriate large sums, in conjunction with appropriations by states, until the job of eradicating tuberculosis from cattle is completed. Wisconsin may congratulate itself it is so far along on the eradication road.

PLEASURE AND PAIN
'Tis pleasure men desire and loudly praise,
Joy is by poets world-wide over sung.
Laughter is loved alike by old and young.
All hearts are lured by bright and sunny ways,
Men dream of happy, care-free, restful days.
When never shall the bells of grief be rung,
But all shall fit like butterflies among
The poppies which the breeze of summer sways.
But from the things despised, from pain and care,
Insistent duty and harsh failure's sting,
From all the burdens which a man must bear
The greater glories of the spirit spring.
To days of ease are tuned the pipes of Pan,
But hardships are the builders of the man.

THE TIME AND THE PLACE
Did you ever have a stone bruise and a soap and sugar poultice applied by grandma to "draw" the poison out? If you haven't, you've missed some of the joy of the days of real sport. Have you ever known the delight of the salve that has such a "healing" aroma, the balm that smells like an old time doctor's shop? There is in all of us a fondness for mystery or mystical associations. Doesn't the odor of phenol (carbolic acid) and its various derivatives suggest "cleanness"? Has any antiseptic or healing nostrum without an impressive odor or color ever gained any degree of popularity?
In modern surgical practice, as well as the best sanitary practice, no disinfectant or antiseptic other than soap and water and air and sunlight is employed. The day of horrendous stinks and frightful stains is past. Only a few genuine old timers still cling to the use of certain ointments or pre-vading agents of this sort, such as iodoform or corrosive sublimate (bichloride of mercury) tablets colored blue.
As yet no antiseptic agent has been found which will destroy germs in the nasal cavity or in the mouth without injuring the delicate mucous membrane lining of these cavities. Probably any of the scores of antiseptic agents used in these cavities does serve to diminish the multiplication of germs which are free in the cavity. But it is simply childish to imagine that any such agent can have any influence upon the germs which are in the tissues and causing trouble. This does not mean that there is no use in gargling or rinsing the mouth or spraying or irrigating the nasal passages or applying to the teeth or gums medicaments which contain antiseptics. Such precaution often helps to prevent the spread of infection.
There seems to be enough evidence in practice to warrant the routine first aid treatment of wounds by an immediate swabbing or covering with tincture of iodine. This having been applied it is best to use no more antiseptic or disinfectant of any kind, but simply protect the wound from infection, by means of a suitable dressing or other care. Certainly we know that the immediate destructive cauterization of wounds inflicted by the bites of possibly rabid animals or wounds of a kind possibly infected with tetanus (lock jaw) is sound treatment (just as it is sound to cut out or cut off masses of flesh hopelessly damaged by injury). Likewise it is sound treatment to excise immediately the flesh about a rattlesnake bite. The application of antiseptics to any of these three last named classes of wounds is futile and inadequate treatment.

There is a factor of much importance, in reference to the action of antiseptics, and this factor is rarely considered by the professional people who put too much reliance in antiseptics and never by laymen who have blind faith in such remedies. This is the factor of time. An antiseptic solution which is in contact with the germs only a moment can accomplish little or nothing. It must have several minutes to act, if it is to do any more than so much water will do.

Remember too, that the germs free in the mouth, in the nasal cavity and in the gut-tract are able by antiseptics, are doing no harm. It is the germs which have invaded the tissues, and are therefore beyond the influence of antiseptics, that are causing trouble.

If this is like taking candy away from children, I am doing it for the children's own good.

QUESTIONS AND ANSWERS
Vermicide or Sulfide

Does the constant taking of calomel, such as one grain of calomel and one grain of calomel in tablets each night hurt the system? (A. A.)

Answer:—Yes. The mercury alone tends to produce a cumulative chronic toxic poisoning. The calomel tends to cause blindness, preceded by yellow or green vision, muscular tremors, convulsive twitches or convulsions. This question reminds us that a little knowledge is dangerous. Probably the unfortunate who uses the calomel and santonin has a notion that the medicine will kill worms, whether such intestinal parasites are present in fact or only in the victim's imagination. It is futile, and very often dangerous, to play a patient with worm medicines (vermicide or vermicide) in such desultory fashion. You are quite likely to miss the worm, if any present, and bring down the patient. I have no objection to telling the proper way to conduct such treatment—it is strictly a medical matter of health I warn readers never to monkey with alleged "worm remedies" on their own or other incompetent assurance.

Seven Wet Washes Daily and Tired
Do you advise dry cleaning for twin babies 4 months old? So far they have had a wet wash every day, along with five others. Also, what would you advise for a tired feeling? My wife is 35 years old but looks more like 53 now. (E. D.)

Answer:—Infants should have a daily bath until they are old enough to control bowel and bladder. After that one or two wet washes will do very well with a wet wash maybe Saturday night, for auld lang syne. For the tired feeling I would prescribe a squad of housemaids, nurse girl and hired men.

HASKIN WRITES TODAY

MARINES STOP MAIL ROBBERIES.

Washington, D. C. — The United States Marines went back on the job of guarding the mails on October 16 and since that date there has not been a single mail robbery of consequence anywhere in the country. One minor hold-up has been reported from Minnesota, but it was so unimportant that it is not regarded as spoiling the record. Besides, the Marines were not on duty in that section and could not have prevented the robbery in any circumstances.

Thus, in the words of the simple, laconic report that has been received in Washington so often since the formation of this arm of the national defense, "The Marines have the situation well in hand." Bandits, yeggmen, and other criminals apparently do not care to do battle with the fighting men of the famous Corps, which not only has as its motto, Semper Paratus — always faithful — but has a record for being always effective.

What it means to have the Marines doing guard duty on mail trains, mail trucks, at post offices, and at railway terminals may be better understood perhaps when it is known that during the last fiscal year, ending June 30, there were fourteen major mail robberies in the United States. Major robberies are hold-ups in which money or valuable in excess of \$100,000 are taken. The official statement of the loss in these fourteen robberies is \$1,408,540, but it is said that the actual loss was really much larger. The authorities listing only immediately negotiable securities, money, stamps, and jewelry in the government reports.

During the first three months of the present fiscal year these crimes continued to increase in number and so-called robberies until the Post Office Department decided to call on the Marines, as it did a few years ago when attacks on the mails featured the post-war crime wave. There were several robberies in which the loot totaled \$200,000 or more, and almost innumerable smaller affairs. Postal employees had been armed and instructed to shoot to kill, but that did not check the criminals. Then the Marines were ordered out and over night the depredations ceased.

At any rate, early in 1923 they were at it again and soon had a long string of successful robberies to their credit. In October of that year a gang of amateur bandits held up a train at Siskiyou, Oregon, killing two of the crew and attempting to blow open the mail car with explosives.

The big Roundout robbery came in June, 1924. William J. Fahy, a post office inspector, joined up with a

group of bandits to pull off that affair in which a fast train was held up near the Wisconsin state line and the more valuable of forty bags of mail were stolen. The loss was unofficially stated to be more than \$3,000,000, including \$2,300,000 in bonds and cash.

During the next year the first attack was made on the air mail. Hold-up men stopped a truck that was taking the air mail from the flying field to the post office in San Francisco and made way with the registry pouch which contained \$25,000 in currency and a large amount in securities and jewelry. Early in October of this year an unsuccessful attempt was made on the air mail at Hadley Field, New Jersey, the bandits killing a motorist and wounding his son.

The first big robbery of the present year was on February 1, when the post office at Pawtucket, R. I., was raided by a gang that held up the clerks, burned into the safe with an oxyacetylene torch, and got away with stamps worth \$255,000. Others of the more spectacular mail crimes of the year include the holding up of a mail train at Ravenna, Wyo., and a similar affair at Evergreen Park, a Chicago suburb. The thieves got \$175,000 at Ravenna and \$200,000 at Chicago.

Various explanations are offered of the amazing revival of mail banditry, which was little heard of after the passing of the James brothers, the Youngster boys, and others of the famous western outlaws. One is that crime of all kinds has increased greatly and that the modern criminals are more daring and more reckless. Another is the development of the automobile which affords the bandits a means of making a quick get-away. Still another is that the mails have been carrying unprecedented amounts of currency and securities in recent years.

There is only one explanation for the sudden slump in the activities of the mail bandits, however, and that is the reappearance of the Marines as guards. As long as they continue on the job the Marines taken on a new permanent line of duty?

QUEER QUIRKS OF NATURE

A Nut Tree Known In Boy's Rhymes

BY ARTHUR N. PACK
President, American Nature Ass'n
Nuts and nut trees have been familiarized up all with the name of the hickory tree, the famous Cary family. The best known of its members is the shell-bark—or shagbark—which produces the best nuts; it has the most distinctive features.

Found from Quebec to Minnesota, and south to Florida and Texas it is a valuable tree and should be protected.

It usually reaches a height of 50 or 75 feet, and about 2 feet in diameter; the bark on the young stems is smooth and light gray, becoming distinctly shaggy on the older trunks. Its leaves are alternate, 5 to 14 inches long, and are compound of 5 to 7 leaflets.

The fruit, which is round and from 1 to 2 inches long, has a husk; eventually this husk splits into four sections, disclosing the smooth white nuts, pointed at the ends. The kernel is large and sweet.

The wood is heavy, hard strong elastic, and close grained; it is usually used for handles and vehicles. Another branch of the family is the bit-

What is Sauce for the Goose is Sauce for the Gander.

Editor of the Post-Crescent—It is with great sorrow that I hear and see the evidence of the crime wave sweeping over the country these last few years. I often long to do my bit to help to better these conditions but feel too helpless to do anything worthwhile. While I am not a statesman or politician or leader. But I have a few ideas I should like to express and if this should reach the eye of some one who is capable of forming a plan of action and carrying it out, maybe the levers might work and something be accomplished.

It is said that the way to stop bootlegging and intemperance is to repeal the prohibition law, give people liberty to use and sell liquor "with a kick in it" and let the government control the traffic. Now with that question so satisfactorily settled, I would suggest that we apply the same principle in the treatment of these other questions so urgently demanding attention.

For instance, we have perhaps heard of more holdups during the past year than there were in the ten years preceding 1914, and no effectual check has been found. Since we cannot stop this let us make laws to regulate it. We might pass a law that if the holdupman or the burglar takes only one fifth his victim's money he shall not be punished. In many cases the really needs the money so his need is supplied besides saving four-fifths of the money for the owner and exerting an influence over the other robbers to induce them to keep within the law.

Then there are murders. Nearly every day we hear of some fresh murder, many of them so brutal and revolting as to make it fairly nauseating to read to hear the details. If we would make it a law that when a man or woman (or boy or girl) feels it to be necessary to get somebody out of the way the government would provide one of these subtle poisons or poison darts—such as are sometimes described in stories—causing instantaneous and painless death, it would seem so much more humane than to allow such brutal murders to go on. And of course the same plan could be carried out in dealing with other forms of crime.

I hope some wise and learned politician who is a capable leader will consider this matter and see what can be done; for I believe justice and right can be brought about by using this plan along these lines just as well as in dealing with the liquor traffic.

Q. Please give details of the last Pike's Peak race. E. R.

A. The latest race up Pike's was won by Glen Schultz, in a Stutz special, in 18 minutes and 19.2 seconds. The other contestants were as follows: (second) Joe Unser, Lexington Special, 19 minutes, 1.4 seconds; (third) Humphrey Bollman, Oakland Special, 21 minutes, 35.4 seconds. The length of this road is 12 miles.

Q. Where can I borrow money to aid me in financing a college course? N. E.

A. Practically every large college or university provides funds through which students may obtain money to further their college education. These funds are obtainable only through the college or university direct.

Q. Are there several kinds of poison ivy? H. R.

A. Poison ivy plants are most readily recognized by their leaves which are always divided into three leaflets and by the whitish, waxy berries which somewhat resemble mistletoe berries. Botanists now classify the poison ivy into three species; first, a species typical of the East; second, a species typical of the middle northern States; and third, a species typical of the far West.

No one would say that Mrs. Frank L. Cheek's heavy footgear detracts from her chic appearance. The latest from gay Paris, she displayed them proudly upon her return to New York.

You'll hunt a long time before you find two healthier youngsters than these two state champions and highpoint winners in the health contest at the International Live Stock Exposition in Chicago. Miss Mary Livingston of Sally, N. C., is being whiffed by Aubrey Dill, 19, of Morehead, Miss.

The widow of Dr. Sun Yat Sen, first provisional president of China, is about to be made provisional president herself, according to reports from Hankow. The nationalist government will give her the office, it is said, as part of its program for the unification of China.

George W. Shoch, 88, of York, Pa., is believed to be the only living witness to the writing by President Lincoln of the first draft of the emancipation proclamation. He was a telegrapher in the War Department office in which Lincoln buried himself to compose the document.

Co-eds are taking the term "sport clothes" literally in regard to hats as demonstrated by the chapeaux here shown. Not satisfied with having her felt turban modeled after a football headgear, the miss at the top also wears a cut-out figure. Lower left is a model suitable for tennis, and the one at the right is a natty decoration for any fairway. Created by Madame Bruck Weiss.

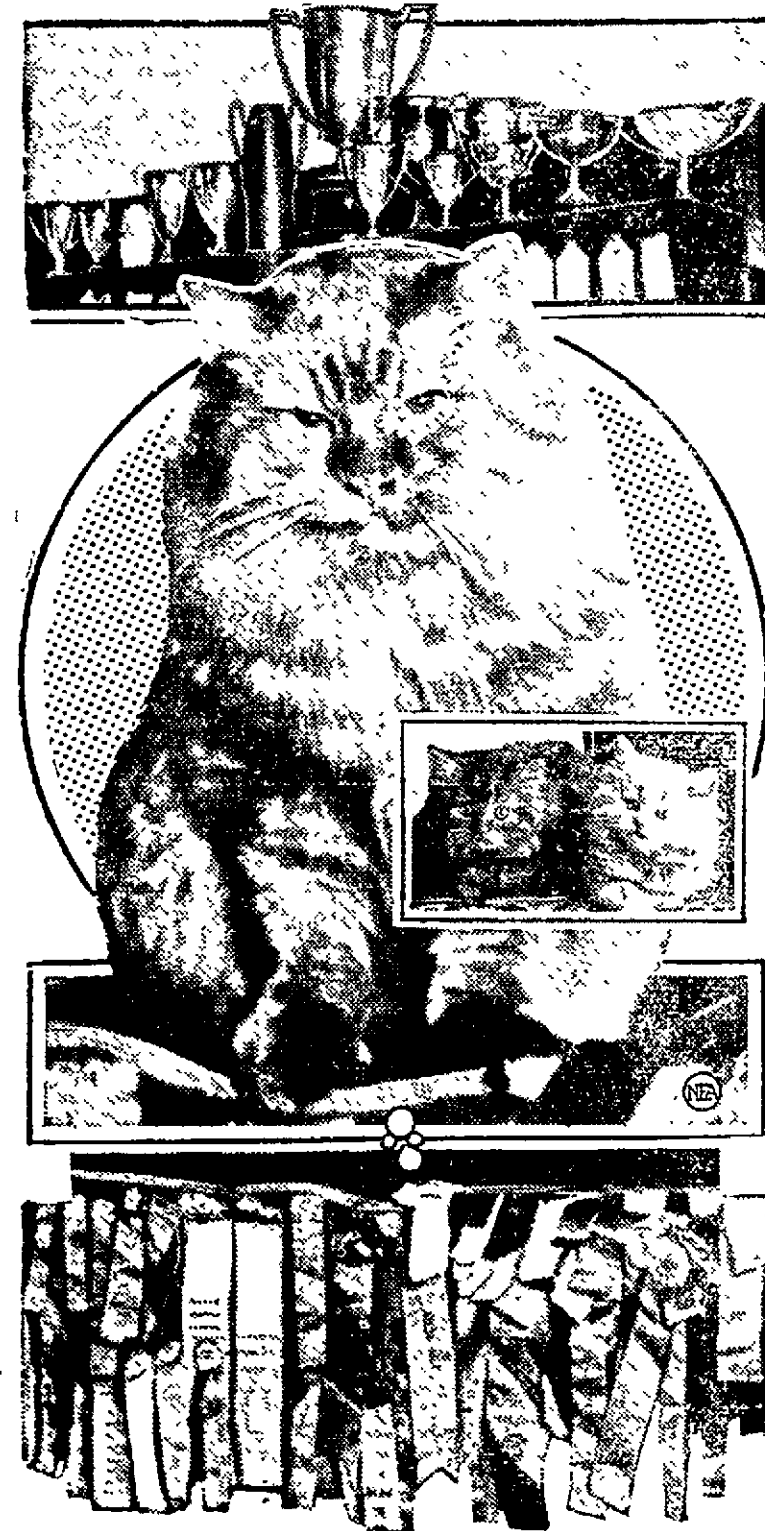

Love and happiness have replaced charge and counter charge under James A. Stillman's roof. Mrs. Anne Urquhart Stillman, defendant in the century's most sensational divorce case (right), and now reconciled with her husband, is seen above with Lena Wilson, daughter of the wids, who is to marry "Bud" Stillman, up on their return to New York from Canada. And at right is the latest photo of "Baby" Guy Stillman, about whose paternity raged much of the Stillman divorce litigation.

Nice chicken pie that was left at East Cambridge, Mass., jail for Jeremiah Gedzum, a prisoner! Mid giblets, wings and drumsticks the adbert turnkeys found a loaded .38 calibre automatic. They concluded that "Jerry" had had designs on freedom.

This shows members of a sheriff's posse just after they had discovered the shallow grave in which the body of Clara Olson was buried near Rising Sun, Wis. The picture was taken just before the body was lifted from the grave. The girl's sweetheart, Erdman Olson, is being sought as her slayer.

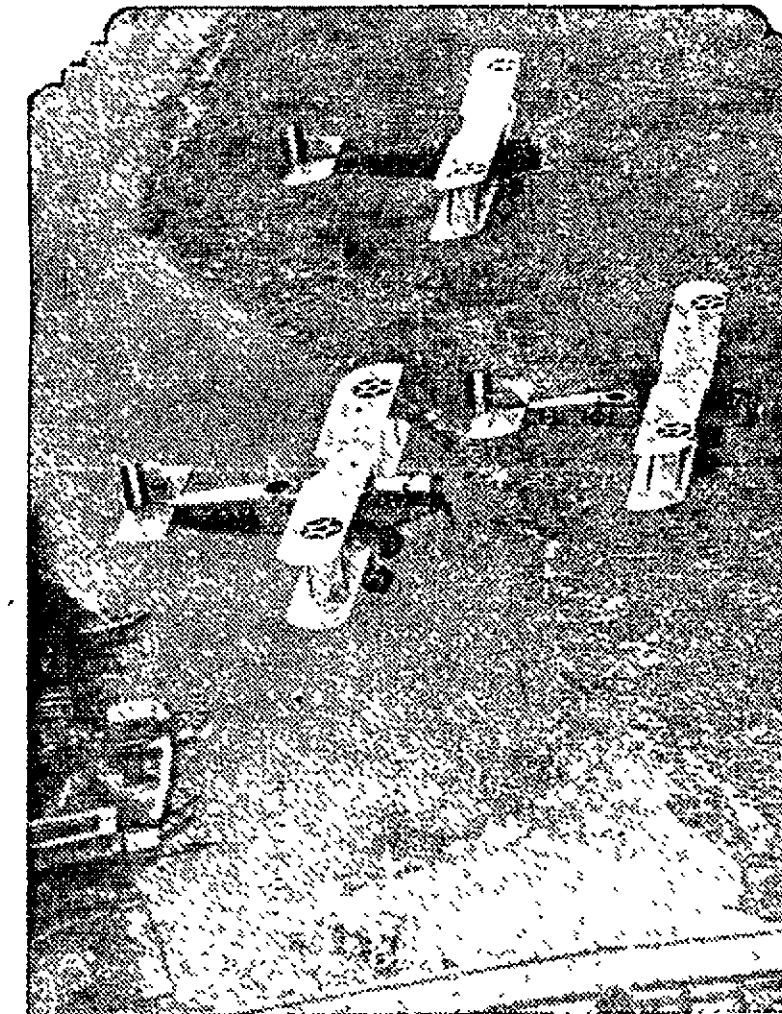

Admiral Vermillion, champion person cat of the United States, owned by Mrs. J. J. Howlett, earns \$500 per month. He is shown here with some of the cups and ribbons he has won. Inset, two of the youngsters, which sell before they are born for \$100 or more apiece.

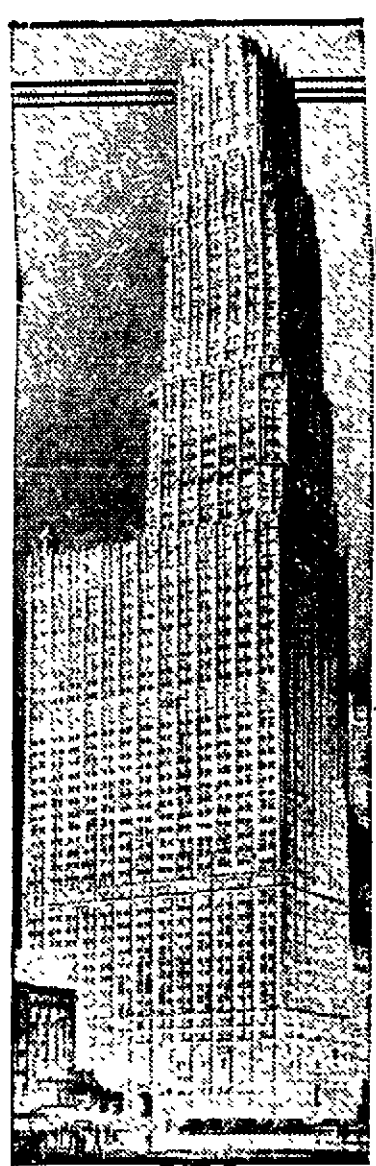

The python and the chimpanzee have been enemies since prehistoric times; but out at Long Beach Calif., Dr. James E. Edwards has a zoo in which "Billy," a chimpanzee, is deeply attached to a huge rock python. The two are shown here biling and cooing.

What! No cravat? That's what greeted Sid White, cowboy barrister from Oklahoma, at the door of the United States Supreme Court chamber in Washington. And they would not let him come in until he'd appropriately garbed his epiglottis. But as soon as he came out—it was then that this picture was taken.

Three of the Marine transoceanic planes, piloted by non-commissioned officers, shortly after they left Quantico, Va., for San Diego, Cal., on the second leg of the flight. Their journey totalled 7000 miles. It was undertaken to demonstrate the practicability of quickly transporting aerial squadrons from coast to coast.

Work will be begun next month on the tallest building in the world—the Book tower at Detroit. This is an architect's drawing of the building which will be 873 feet high and will have 81 stories.

Typically collegiate is Yuri Kawakami, student at Swarthmore College, and as popular a co-ed as ever flopped across the campus. Yuri, despite her Occidental appearance and canners, is a Japanese, daughter of a noted Nipponese journalist and author who now is in Washington, D. C.

While her husband, Harry Richmond, looked on, Mrs. Blanche Richmond, 33-year-old mother of two children, shot and killed 17-year-old Carrie Sparks, with whom Richmond had eloped to Kansas City from St. Joseph, Mo. She told him, "I won't shoot you because I love you," according to Kansas City police, who are holding her on a murder charge. Richmond disappeared in the excitement following the shooting.

Campus Rebels

By Virginia Swain

WHAT HAS GONE BEFORE JUDITH MARTIN, a young Pendleton University teacher, is constantly in hot water with DEAN TIMOTHY BROWN of the discipline committee, because of her friendship for ERIC WATERS, radical sear, and other rebellious students.

MYRA ALDRICH, spoiled young daughter of wealth, is in love with Eric and jealous of Judith.

When Judith stumbles on a secret love affair of the dean's wife, she befriends her against the black-mailing of "KITTY" SHEA, town bootlegger, and appeals to Eric for protection.

Shea's body is found under his car, in a creek, shortly after the Christmas holidays. Eric is arrested as a material witness, when a letter addressed to him is found in Shea's pocket.

Mrs. Brown comes to Judith and insists that they must save Eric. Judith remembers a bruise acquired by Eric about the time of Shea's death.

NOW GO ON WITH THE STORY CHAPTER XXXVI The inquest over Shea's body was held behind closed doors. Groups that waited outside the coroner's office all of a wet afternoon turned away disappointed when the coroner and his assistant left the building silently at six o'clock.

Will Wetherell brought the news that there was no news to Judith, waiting at the hotel nearby. She was sitting by the mezzanine rail, watching the lobby doors below. When he waved his hand to her and shook his head sadly, Judith lay back in the armchair and waited for him to climb the stairs.

"Nothing doing, Jude," he said, when he came up. "Not a word to be had from the coroner or any of the rest."

She rose slowly and gathered her coat about her. They went down the stairs and through the lobby. "Well, eat at the 'Tavern,'" said Will, and buy a paper there." She neither assented nor objected.

"Saw old Brown this afternoon," said Wetherell, as they seated themselves at a table, "and he was looking like the cat that ate the canary. Shea murdered and Eric in jail—what more could the old pussyfoot want?"

"Murdered?" repeated Judith. "Is that the general opinion?" Wetherell shook his head. "No. There are a number of conflicting ones. But the detention of Eric is making people talk."

Judith clasped her hands. "Isn't there any way for Eric to prove his alibi?" Wetherell considered. "I haven't been able to talk with him. I tried to see him today, but they said it wasn't visitors' hours."

Judith nodded. "That's more of Brown's work. It's always visitors' hours in that little jail. They surely don't observe strict rules as the city jails do."

"Perhaps Brown did have something to do with it. He is certainly hot on the trail and I can see why. If Shea is dead, and they can bag Eric to show to the legislators, to prove that now Pendleton will be as pure as snow, what a feather in the cap of the discipline chairman!" Judith sipped her tea. There were heavy smudges around her eyes, and the rouge showed plainly against her white cheeks. Her hands clutched the teacup nervously.

"You've been mighty good, Will."

STUDENTS GIVE "STUNTS" AT MATH PARTY

Mathematical terms and figures were represented in the play and stunts given by students of Appleton high school at the annual party of the mathematics department, held at the school Friday night. The play was presented to the entire group of more than 100 students, and the stunts were given in rotation form. Four smaller groups met in session rooms where programs were given. They passed to other rooms, until each program had been seen.

Principal characters in the play were Miss Marie Kessler, Charles Deerenboon, Donald McMahon and Miss Monica Van Ryzin. About 20 others took the parts of terms and figures.

Christmas decorations were used in the corridors. Miss Ethel Carter was general chairman, and she was assisted by two other faculty members of the department, Miss Ethel Harrison and Miss Esther Graef. Chaperons were Mr. and Mrs. Harry Cameron and J. Raymond Walsh.

CATHOLICS AT COLLEGE TO BE PARTY GUESTS A plate lunch will be served at 5 o'clock in connection with the special meeting of the Catholic Students club of Lawrence college Sunday evening at Catholic home. After the supper a program will be presented and a social will be held.

The committee in charge of the supper consists of Mildred Feller of Kaukauna, Leone Tuberg and Helen Gillman of Appleton and those in charge of the entertainment are Emmet Tohan of Kaukauna, Henry Berzinsky of Manitowoc and Jerry Taborsky of Baraboo.

Feeling the Strain?

Overwork and Worry Tend to Overtax the System. MODERN habits—overwork, worry, insufficient rest and exercise—all tend to overtax and slow up the bodily machinery. Good health requires good elimination. The kidneys filter the blood. Sluggish function, however, permits some retention of waste poisons. Such a "toxic condition" is inclined to make one languid and tired; there is sometimes toxic backache and headache. That the kidneys are not functioning properly is often shown by scanty or burning passages. Thousands recommend Doan's Pills, a stimulant diuretic in these conditions. Doan's act on the kidneys only. They are endorsed the country over. Ask your neighbor!

Smith Drills Boys Hard to Prepare for Opening of Season

Kaukauna—About twenty boys are turning out regularly every evening for high school basketball practice. Coach Smith is working them hard and expects to have them in first class shape in a short time. Among those who are showing up well at this early date are Macerorie, McFadden, M. Miller, Verbeten, Farwell, Noie, Bixler and Esler. No doubt Smith's first team team will be chosen from these eight men. "Butch" Chizek looks good among those who are out for their first year of high school practice.

Coach Smith gives the team a blackboard or "skill drill" every afternoon. He works his men at various forms of exercises to keep them in the best of condition physically. He attributes much of the success of his team to the physical condition of his players. Those who turn out regular for practice are Deering, W. Miller, Byron Esler, Richard Landreman, Robert Main, Richard Ferguson, Lester Eschik, William Rohan, Ralph Sager, Charles Bartsch, Howard Paschen, "Butch" Chizek, M. Miller, Leonard Macerorie, James McFadden, Jack Verbeten, Carl Farwell, Jerome Koch, Norman Foxbruber and Norbert Noie.

FIX CITY TAX RATE

An adjourned council meeting was held on Thursday evening, as Mayor Bonk was out of town on Tuesday, the regular night for meeting. The annual tax budget was prepared, and the rate of taxation for coming year will be \$24 per \$1000. It also was decided to keep the ice on the mill pond flooded up to keep it in good condition for skating.

A. Mentzel was in Manitowoc on business on Wednesday.

Mrs. John Piper entertained 10 guests at cards and supper at her home on Park-st on Thursday afternoon.

A marriage license was issued by the county clerk to Walter Wrensch and Pearl Schreiber, both of the town of Harrison.

Walter Kurtz, cashier of the Chilton National bank, is confined to his home with an attack of the grip.

Miss Mabel Bush, state inspector of city grades, inspected the public schools in this city Friday, Matilda Horn, county superintendent of schools, and Mrs. Pearl Rose, supervising teacher for this county, also visited the grades on Friday.

ROADS DRIFTED SHUT
AGAIN BY FRIDAY WIND

Kaukauna—Many country roads were drifted shut Friday by the high wind, making automobile travel nearly impossible and highly dangerous. A bus driver from Milwaukee to Green Bay on highway 55 reported that it was necessary to drive in low gear all the way into this city from Stockbridge because of drift. He said he didn't think he could make it back to Fond du Lac again. Plows worked on the Appleton-Kaukauna road to keep it open.

FARMERS FLOCK INTO
CITY FOR PIG FAIR

Kaukauna—A large number of farmers were in the city Saturday morning for the December Pig and Poultry fair. Most of them came in to the city on sleighs and reported a great amount of snow on the country roads. Poultry sales were being pushed just as much as the sale of pigs. Quite a number of buyers from all over the state were on hand ready to snatch any livestock the farmers had to offer.

It has been customary to have a Christmas tree on the roof of the city garage every other year.

TRUCK BEARING LARGE
FURNITURE LOAD TIPS

Special to Post-Crescent
Wrightstown—Henry Vandi Bush, owner of the Wrightstown Dray Lines, tipped over in Neenah with a large truck loaded with furniture and household goods. Saturday morning when he was bound for Madison, in attempting to round a corner, the rear end of the truck skidded on the icy streets, striking the curbing and overturning. Considerable damage was done to the truck and furniture.

A seat tournament was held Sunday afternoon at the American house. First prize was won by Frank Smith of Greenleaf.

Vanderheiden was suddenly taken ill Sunday at Mountain, where he had spent the previous week deer hunting. His father, Theodore Vanderheiden, brought him home Sunday evening. Tuesday he was taken to St. Vincent's Hospital at Green Bay, and the same afternoon underwent an operation for appendicitis. He is doing as well as can be expected.

The five hundred club met Tuesday evening with Mrs. N. B. Remmel. Prizes were awarded to Mrs. N. B. Remmel, Mrs. T. E. Jackobs and Mrs. George Vanderheiden. After the game a lunch was served.

Simone Willey is spending a few months at Fond du Lac.

STREET CREWS REMOVE
SNOW FROM CITY STREETS

Kaukauna—Most the snow on the streets on the north side of the city has been removed and a large number of men are cleaning the south side streets. By Saturday evening most

streets should be in good condition. Hills in the city will be sanded to prevent children sliding and coasting on them.

FEWER AND BETTER LAWS NEEDED, SAYS YOUNG LEGISLATOR

Winnebago-co Assemblyman One of Three Youngest Members; All Lawrence Graduates

Oshkosh.—(AP)—Chester D. Seftenberg, 22, one of the youngest members of the Wisconsin legislature will chart his legislative course in the coming session with the idea of "fewer and better laws rather than more laws," he said here Friday. He is assemblyman from the First district, Winnebago-co.

Seftenberg's twenty second birthday fell five days before the primary election at which he won the nomination. In the election he received \$189 votes out of 471 for his independent opponent.

LAWRENCE GRADUATES

The three youngest members of the legislature, Seftenberg, Paul Ungrodt of Washburn and Oscar Schmeide of Appleton, are graduates of Lawrence college. The triumvirate was intimate in school activities in 1922 when Seftenberg was a freshman and his colleagues were seniors.

SEPTENBERG PLATFORM

The platform of the young assemblyman follows:
 "1. No law not square with justice, wisdom, and necessity.
 "2. Legislation which protects the worker and his family.
 "3. Re-enactment of the personal property offset, which makes the income tax the substitute for the personal property tax, as originally intended.
 "4. Repeal of the graduated weight license for the vehicle first gas tax. (I would favor the retention of a uniform, nominal license fee).
 "5. Continued support of our educational system, especially teacher training.
 "6. A sound, state-wide conservation policy.
 "7. Repeal of useless legislation and reclassification of existing statutes.
 "8. The strictest economy of legislation and administration.
 "9. An absolute minimum of new laws."

NEWSBOYS APPLY FOR PERMITS TO WORK

Several child labor permits have been issued in the last two weeks to newsboys who formerly were working without the sanction of the law, according to J. G. Pfeil, truant officer. News stand dealers have cooperated with the city since they were warned of the serious consequences of continued employment of unlicensed boys, he said.

NEW REALTOR OPENS OFFICE IN APPLETON

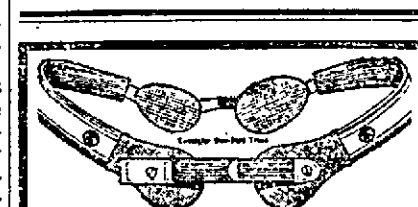

The latest real estate dealer to open an office in Appleton is George Artz, 231 E. Winnebago-st. His office and residence are both located at that address.

LONSDORF OPPOSED TO BOGAN, MUENCH PARDONS

District Attorney John A. Lonsdorf has filed an informal brief in letter form with Gov. John J. Blaine opposing pardon for Wilbur Bogan and George Muench, it was reported Friday. The men were convicted of robbery and several efforts have been made for commutation of sentence and pardon.

FIRE AND LOVE, THEME OF NEW FILM THRILLER

"The False Alarm," the Columbia fire thriller, at New Bijou Monday and Tuesday, is one of the most entertaining films of the season. There is nothing faked about the fire scenes in this film, and they are assembled in a way that successfully sustains the vivid vein of suspense threaded throughout. One of the best casts that could possibly have been selected for the story, appears in the picture, containing names that are reminiscent of many other popular film successes. They are Ralph Lewis, one of the screen's best character actors, Mary Carr, veteran of mother roles, John Harron, brother of, and similar to the famous, Bobby now deceased; Dorothy Reiser, talented as an actress and also a prize winning beauty; George O'Hara, who made a recent hit with John Barrymore in "The Sea Beast"; William Franer, Lillian Leighton, and Arthur Hoyt, creating the comedy of the picture and Frisella Bonner, also well-known, who gives one of the best performances in the picture.

ORANGE MENTORS WORK TWO FIRST SQUADS IN PRACTICE

Start Scrimmage With Five Men, Then Remove Entire Quint For Subs

Lutz, Strutz, Laird, Steinberg, Moore at Varsity Cage Jobs

Using two full teams, which ranked almost on a par, alternately in practice this week, Coach Joseph Shields is preparing to play that type of game during the valley conference season with his Appleton high school team.

The first squad of the past week has seen Lutz and Strutz, veteran forwards, at the shooting posts, Laird, six-foot endman, at center and Capt. Steinberg and Moore at guards.

Trick play practice is the Orange dish from now until the opening game with Oshkosh on Jan. 7. Several plays from the same formations, built around a speedy passing attack and sudden breaks, are receiving much attention.

The Orange spent a hard week of practice in three gymnasiums this week to become accustomed to various types of floors. The early part of the week was spent in the armory, the latter part in the cramped high school gym, such as West Green Bay plays its games in, and the Saturday practice at Wilson, high gym.

SCRAPPERS START DRIVE FOR CROWNS

At Least 12 Championship Fights Scheduled for Next Few Months

New York — (P) — The padded knuckles of more than a score of recognized contenders were tapping on challenge Saturday at the Waldorf Astor, where the champions of the world are training camps in a widespread title drive.

In the wake of a string of dethronements which marked the passing of seven titlholders this year, three class leaders found themselves immediately threatened by the names of the new contenders.

The general roundup for the campaign was extended Friday when New York state athletic commission placed its official stamp of approval on a welterweight series, Joe Dundee and Willie Harrison were paired against Mushy Callahan and Eddie Roberts.

Pete Latzo, incumbent of the 147-pound throne will meet Sammy Baker, next week owing to an eye injury. Fiddie LaBarba, next week will risk his flyweight crown against Elky Clarke of England and Charley (Phil) Rogers of Boston will engage with Harry Ferson, Swedish challenger.

The supporting fights will match Monte Munn against Knute Hansen, Wisconsin Dane, and Otto Von Porat of Norway, against Martin Burke of New Orleans.

Jack Dempsey, Jack Sharkey, Paulino, Jack Delaney and Paul Berlenbach will be the main event of the main bout winner.

MELHORN TAKES LEAD IN WINTER TOURNEY

Del Monte, Calif. — (P) — Headed by Bill Melhorn, Chicago professional, whose smashing 72 Friday put him in the lead for the first round of play, more than 100 amateurs and professionals took up the trail again Saturday in the second leg of the 72 hole \$5,000 Monterey Peninsula open golf championship, final event of the winter tourneys.

Melhorn held his lead by the barest of margins, as trailing at his heels were Al D'Amico, Chicago and Hunt Martin, Los Angeles with scores of 75, one over par for the public, beach course. The field, numbering some of the greatest performers in the country, found an unexpected handicap in a high wind that eroded the course from the northeast. It proved a hindrance to George Von Elm, Los Angeles national amateur champion and a favored contestant, who played his round in 76.

Tony Travers, New Haven, and Fred Bietonnet, France, drew (S.)

SKATING'S STRONG MAN APPEARS HERE WEDNESDAY NIGHT

Marathon Mack, Holder of Many Marks, to Tow Cars With Teeth, Hair

Roller skating fans of Appleton and vicinity as well as admirers of strong man acts will have a chance to see one of the feature strong man-skating attractions of the season, late Wednesday evening at Armory G.

Mack known as the world's champion skater, will pull three cars furnished by a local dealer, with his teeth while roller skating. Beside performing the act with his teeth at the Armory he will also appear in on the local streets if the weather permits.

Mack's record is pulling 15,263 pounds or five loaded sedans with his teeth and 4,550 pounds, two sedans containing two passengers each, with his head. He has appeared all over the country and beside these records he holds the following marks which he captured in record:

Endurance record and championship of France, 23 hours; of England, 26 hours; 18 minutes of Europe, 21 hours; of the world in couple skating, paired with Miss Helen Lawlor of New York, 27 hours, 30 minutes; endurance record of the northwest, 34 hours, 15 minutes; world's record, 48 hours; outdoor endurance record 52 hours, 6 minutes; outdoor marathon record, 504 miles; indoor endurance record, 53 hours, 10 minutes; indoor marathon record, 615 miles; record for skating towing a car with teeth, 10 hours.

TEXAS FEELS GRIDIRON EXPERTS SLIGHT STARS

Texas feels it is being slighted in that the stars of the Southwest Conference are not receiving national recognition by the football experts. The Southern Methodist University team, which won the conference title, certainly is entitled to a place among the first 10 teams in the country, yet Gerald Mann, one of the greatest backfield stars Texas ever produced,

Cards In Final Public Scrimmage At 4 Monday

Madison — The third and final open scrimmage for the Badger basketball team prior to the season's opening here with Franklin College next Friday has been scheduled for Monday afternoon at 4 o'clock. The Cardinal fans will have a chance to see every member of Doc Menzies' squad in action during this public exhibition, for the Little Coach has planned to send a team of veterans against a sophomore five, and duplicate with the freshmen.

Although little ink has been stowed upon the Badger recruits this year, there are a number of boys playing upon their first year of varsity ball who have the stuff to produce in fast company. The team draw-back of this proposed veteran battle is the lack of a rangy pivot man in the frontcourt of the old-timers. Coach Menzies will undoubtedly steal one of his soph centers from the young stars aggregation.

Two Chicago boys, Ray Ellerman and Phil Koenig, will fill the forward posts on the veteran five. Although lacking in experience, this pair have

SATURDAY GAMES
Kaukauna "Y" vs Citizens Bank.
Kimberly-Clark Co. vs Eighth team

One and possibly two hardfought basketball games Saturday evening will complete the first week of play in the 1926-27 Y. M. C. A. Industrial Basketball League and will leave four teams tied for the loop lead. At present the Galpin Hardware and Fox River Paper Co. crews, both former loop champs, lead by virtue of wins Tuesday evening.

The first game Saturday is certain to be a close battle with the Citizens National Bankers of Appleton clashing with the Kaukauna "Y" men. The Bankers were runners-up for the last two years in the loop and took second to the crack KC Athletics in the 1926 district amateur meet. They are handicapped by the fact that Cookson, their best shot, has left the city, but they are facing a foe who is playing on the local Y floor for the first time.

The lineups of the Bankers will include H. Voeks, Conn and Fingers forwards; McKenzie center and forward C. Voeks, and W. Voeks, guards; St. Mitchell, Miller, Algeo, Farwell, St. Mitchell, Welch, Brenzel and Bisek will perform. All are former Kaukauna high and Milford Athletic club stars but Algeo, who played forward for Marquette last winter, Farwell and St. Mitchell are star guards.

If the second game is played the Kimberly Clark Stars of Kimberly, composed of several regulars and subs of the K-C Athletics, will meet an eighth team. The team has not been lined up early this week but efforts were being made to get the strong Kimberly-Clark team from Neenah in to the loop that sound is ready to go a good game in its prospect.

Winners of the games will have to be considered as among the strongest contenders for the loop top, especially in the first game where two strong squads clash for the first time. Kimberly probably will not have to show much to win its games unless the Neenah crew is ready. The first tilt starts at 8:15.

ROGERS OF PENNSY BEAT GRANGE MARK

Eastern Star Carried Ball 1,100 Yards for Alma Mater in 1926

When Charley Rogers, Penn's great ball carrier, amassed a total of 1100 yards gained for the season of 1926, he had a dream of great wealth and started to execute it.

What would be more interesting to football fans than "Red" Grange arrayed on the side of the New York Yankee football team against the great Charley Rogers of Pennsylvania?

That was the dream. However, it required the formation of another team with Rogers as the star. He took it upon himself to get together such an aggregation.

Enough men on the Penn team had finished their grid career this year to make an All-Penn team with Rogers as the big magnet to match the deeds of Grange.

The players all agreed to take a chance with Rogers in his professional venture, then the university authorities got wind of the proposition and quickly quelled it.

Rogers only played two seasons on the Penn eleven. The fact that he played a few minutes with Colgate against Ohio State a few seasons ago made him ineligible for varsity competition next season.

Other players in that section worthy of national consideration are Halchuck Corteseglia, a teammate of Mann's; Quarterback Clark of Texas Christian; and Higgins and Clark of University of Texas.

Dempsey Says He Won't Fight Unless In Shape

BY DAN THOMAS

Los Angeles — Jack Dempsey will not know before March 1, 1927, whether he will return to the squared circle.

That is the ex-champion's own ultimatum. "I will never fight again unless I know in my own mind that I am right," he declares. "It will take at least two months, maybe more, of intensive training before I will begin to know whether I am my old self. I won't get a chance to do any training except possibly a few light workouts before Christmas. So it will be early spring before I can make a decision. I don't want my friends to lose their money on me again."

"I have a lot of business to attend to at my hotel now. There were many things which needed my attention when I returned from New York, am I just getting them straightened out. And now I have Christmas shopping, which will keep me busy for a while."

Right after Christmas, Jack will turn his entire attention to getting in fighting trim. His training grounds will be Griffith Park, only a few miles from his Hollywood home. That will enable him to remain at home with his actress wife, Estelle Taylor Dempsey.

"If I do fight again it will be for Tex Rickard," Dempsey asserts. "He has promoted all my biggest fights, and I am going to stick by him as long as I am fighting. Rickard will name my opponent, too. It may be Tunney. Rickard favors a rematch for early next summer. No, I don't think the fight will be in New York, probably in Jersey City or Philadelphia. And I won't fight Wills after the things he said about New York. He is out of the picture now, anyway."

Dempsey's statement eliminates the possibility of a bout for him in Tijuana, Mexico, or Los Angeles, where promoters have been trying to sign him. He also spiles the report that he again will go into the movies. At present, his chief interest is in his hotel. As a boniface, he is a distinct success. In this respect his fighting has been a great help. He has traveled over the entire country, stopping at the best hotels and thus learning how things should be done.

When Dempsey and Kearns split, Dempsey took the Hotel Barbara as his share. At that time it sheltered two guests and was mortgaged for \$250,000. Today 55 per cent of the rooms always are occupied, the mortgage has been paid off, and the hotel is showing a profit of \$50,000 a year.

CHUTE CAGE SQUAD WHIP LOCAL BANKS

Run Up Score of 17-0 in First Half to Lick Industrial Team, 29-12

Little Chute—Shorty's Shoes, speedily Little Chute cage squad, added another scalp to its belt Thursday evening by walloping the Citizens National Bank squad of Appleton Industrial League, 29-12, at Little Chute.

The first quarter ended 7-0 for the Slemen and they continued the pace until the end of the half, setting a record by blanking a rival squad for an entire half while scoring 17 points. The half ended 17-0 for the home crew.

In the second half a number of Chute substitutes slowed its usual game in spite of accurate passing and the Appleton crew came back to tie the half 12-12, losing the game, 29-12. The Chute men missed many short tries.

Williams, guard center from Kimberly, led the scoring for the winners with 11 points by Busch and Van Handel scoring 6 apiece. Miron and the Verba brothers each added a ringer while Vanderloop starred in the classy Chute defense. Conn scored two ringers for the Barkers.

The Chute men still desire games with any team in the state, amateur or professional. Games can be booked by setting in touch with Willard Van Handel, manager, at Little Chute, or calling 61-W, Little Chute.

MANITOWOC HIGHS MAY LOSE 3 VETS

Operation, Withdrawal, Ineligibility Bother Crack Cage Squad

Manitowoc—Hopes for one of the most successful basketball seasons Manitowoc high school has enjoyed in years took a sudden and hard drop yesterday when it became known that there is a possibility of three veterans of last year's squad not returning for the season that will open here Friday night against Volders at the high school gymnasium. Ludwig "Moudy" Hanson, veteran guard of last year's team and classy center of Coach John's football team of this year, was removed to the hospital to undergo an operation for appendicitis. It is not believed he will see any action this season. Harvey "Rube" Lenz has withdrawn as a candidate for the team. Lenz is practically the only man of the eight returning veterans that is rangy and big; he played a

FRIDAY GAME
Kimberly 15, Pt. Washington 13.

Kimberly — Lead by the shooting and all around play of Manager Ossie Cooke and Mitt Scheurle, the Kimberly-Clark Athletics climbed into a fourth place in the Wisconsin State League Friday evening by winning their first loop game of the year, 15-13. Port Washington, the victim, was pulled from first place tie as the result of the loss. The Port had beaten Fondy in their opener. Two more undefeated teams, Kohler and Two Rivers, clash this week so that but two squads will be left on top after that tilt and the K-C men will advance to a five-cornered tie for third.

The game was a tight defensive battle all the way with Kimberly playing its five-man style and the Porters using a man-to-man system effectively. At the half the invaders lead, 10-8, and the third quarter was scoreless. Soon after Kimberly spurred to tie the score at 12-12 and a Pt. Washington free throw made it 13-12 with but a minute to go.

With the game apparently lost, Cooke shot a basket and then added a free throw in the last 42 seconds of play to win. The exciting struggle kept a large crowd on its toes throughout.

Gustin and Joannes were the Port stars, dropping most of the ringers. Kimberly was handicapped by the absence of Pete Kolb, star forward, who was on the sidelines with an injured ankle in the Sweden game.

PEPPARD MAY PLAY
Danny Peppard stands a fair chance of making his grades though he has a tough job on hand. Under special guidance he is cracking his books hard with hope that he can again enter the eligible list before Christmas.

Instead of working out with the large squad every night he is spending the time on books.

With these three "out" the remaining veterans, Fishbeck, Capt. Brennan, Fischl, Wilda and Hughes along with such others that may show class, have a hard, uphill fight on hand that is worrying Coach John not a little.

22,000 GALLONS IN GAS TANKS AT SCHABOS' STATION

New Filling Station Open for Day and Night Ser- vice

Tanks having a capacity of 22,000 gallons are used to store gasoline at the Schabos Filling station, 915 W. Collegeave, which recently was completed and opened for business by the Henry Schabos and Sons Fuel company. Mr. Schabos and his sons have been associated in the fuel and building material business in Appleton for the last 15 years.

Bolene gasoline, a product of the Northwestern Petroleum company is sold at the new filling station which is open day and night. Gasoline is sold in bulk and retail and is guaranteed.

In addition to gasoline the Schabos Filling station handles Philip's Special Oil, also a product of the Northwestern Petroleum company, which is made in various grades for different makes of automobiles. A drain service is maintained for patrons of the station. Alomite grease service also is given.

Pochantos coal is the most popular type of furnace fuel although coke is being used more and more because of its high heating power and lack of dirt, according to Henry Schabos, senior member of the firm.

All other types of coal and wood are sold by the Schabos company. The Schabos company deals in building materials of all kinds including lumber, sand, cement, plaster, lathes, stone, bricks, building blocks and shingles, both wooden and asphalt.

Gravel and chinders may be purchased at the Schabos company. A team renting service also is maintained.

France Bound To Suffer Until Franc Is Stabilized

Babson Park, Mass. — Roger W. Babson was interviewed as to the reason for the improvement in the value of the French franc, which strengthening has been quite marked the past few weeks.

HISTORY OF THE FRANC
"For many years previous to the World War the French franc was worth 19 cents in gold. As a money unit it commanded the respect of the entire world and was looked upon as stable as the English pound sterling. Unfortunately, however, France had to bear the brunt of the great World War and naturally her currency was impaired. The following table shows the high and low points of the franc by years from 1914 to the present time:

YEAR	HIGH	LOW
1914	21.74 cents	19.21 cents.
1915	19.53 cents	16.53 cents.
1916	17.18 cents	16.46 cents.
1917	17.51 cents	17.68 cents.
1918	18.58 cents	17.45 cents.
1919	18.36 cents	8.45 cents.
1920	2.30 cents	5.71 cents.
1921	8.52 cents	5.79 cents.
1922	9.37 cents	6.18 cents.
1923	7.44 cents	4.99 cents.
1924	6.53 cents	3.43 cents.
1925	5.45 cents	3.57 cents.
1926	3.30 cents	1.94 cents.

"From the above table it is noted that the low point was reached July 21 of this year when the franc went down to less than 2 cents. Since then it has rebounded to the present figure of about 3 1/2 cents. Some people think that it has started to go up until it will again reach its old par, but this will not happen. A stabilization point may be reached of 25 francs to the dollar or 4 cents for a franc, but my personal opinion is that the stabilization point will be between 30 and 32 to the dollar.

"One thing is certain, it is no intention of the French people to follow the Germans, who sold their marks to the entire world and then wiped them out. France is today making an honest effort to stabilize its currency, is increasing its taxation, limiting its imports, and attempting to balance its budget. Of course, it will take France a long time to recover from the war, and certain adjustments may be necessary; but I don't believe the franc will follow the German mark and go down to nothing. It rather looks today as if the franc would be stabilized around 3 1/2 cents.

BELGIAN STABILIZATION
"One factor which has made the franc more attractive has been the stabilization of Belgian money, which was put on a gold basis October 26, 1926. Belgium has established a new monetary standard called the Belg, equal to five paper Belgian francs and valued at about 14 cents, with a definite gold value of 209.21 grams. This results in stabilizing the Belgian franc at about 173 to the pound sterling or at one-seventh of its pre-war value. This means that the Belgian franc is now worth around 2 1/2 cents or about 36 to the dollar.

"The stabilization of the franc was made possible by the issuance of a stabilization loan of \$100,000,000. Of this loan \$20,000,000 was taken in this country. The fact that these bonds were so readily subscribed has given courage to France in its belief that we will supply her with a similar loan under the same conditions. I believe we should do so if the occasion offers because we owe much to France.

GENERAL OUTLOOK
"France is a good country and has a wonderful people. Moreover, these people individually are thrifty and businesslike. The Government, however, has been extravagant and, from a statistician's point of view, is bankrupt. It has foolishly been spending money in Africa and on armaments which it should have spent at home for constructive purposes. Moreover, there is much suffering in France among people who were living on their income at the time of the war and also among salaried people in general. Salaries have not increased proportionally to the decline in the value of the franc and much suffering exists in France today among the most cultured and worthwhile people. The stabilization of the franc will not only help France internationally but, in the end, will help her own citizens. However much we of this world may differ in our political or religious beliefs, we are all brothers economically and in the end must suffer or prosper together.

"This does not mean that France will not suffer temporarily. After sliding down hill it is always tedious to climb back again. As a declining franc tends to stimulate domestic trade, so a rising franc tends to retard such trade. This is because people are tempted to spend their money when its value is declining, but to save their money when its value is increasing. Already this change is evident in France because retail trade has greatly fallen off during the past few weeks and is now below normal. The merchants are now even urging the Government to take a hand and stop any further rise. Unemployment is becoming general and exports are declining. The increase in the franc is also embarrassing to French speculators who are long on stocks of countries having a high exchange. However, I repeat that this suffering will be but temporary and will be less if taken now—then it will be for a year. The longer the French wait before correcting their financial situation, the harder it will be to accomplish.

GENERAL BUSINESS
"In this connection let me mention that business in America during the next few years will be dependent on conditions abroad. Since the war we have been content to live by ourselves and enjoy our prosperity with little regard to the welfare of others. During these years there has been great suffering abroad, which suffering has been due to these for-

FLOWERS MAKE DESIRABLE GIFTS FOR CHRISTMAS

Have Been Popular During Yule Season for Nearly a Half Century

Flowers are among the oldest of Christmas gifts, according to Miles Meidam, proprietor of the Junction Greenhouse. Mr. Meidam has been in active charge of a greenhouse for the 33 years and has worked in the business since 1874 and Christmas is always a signal for buying flowers for as gifts for mother, daughter, sister, aunt, grandmother, sweetheart or friend.

"Inexpensive, attractive, appealing and beautiful, the charm of flowers for a Christmas gift is a lasting one," Mr. Meidam said.

Flowers have always been most popular as a Christmas gift because it solves a hard problem for many men. Just a simple phone call and a few words of instructions and the flowers will be delivered either Christmas eve or Christmas morning to the door with a personal card.

In addition to flowers as gifts, many men purchase plants for their wives or sweethearts. Plants are popular also as gifts and they carry a lasting message of love and Christmas cheer. The cyclamen and poinsettia are the most favored types of plants.

Special baskets, trimmed with ribbons and standard decorations also are prepared by the Junction Greenhouse. Any type of basket or bouquet desired will be made to suit the taste of the patron. Decorated dried flowers and plants have proven very popular during the past few years in a large line of these articles are on display.

The Junction greenhouse is a member of the Florist Telegraph delivery association and also of the American Telegraph delivery. If anyone has a sweetheart, mother or sister or relative in a distant city in any part of the world, by merely placing an order with this local greenhouse, he can have flowers delivered to the place he wants at any time he specifies.

LUMBER PRICES FALL TO LOWEST LEVEL, MILLS THINK

In its market report this week the American Lumberman, Chicago, says: Lumbermen appear to be giving more attention to plans for the new season's business, although the movement of lumber is large for this time of year. Total softwood sales for the week ended Nov. 27 amounted to \$5 per cent of production by the principal mills, but there has probably been a further slight tapering off in demand since then. Both retail yards and industrial plants are having shipped to them only what they need immediately, as they plan to have as low inventories as possible. How far they had succeeded in reducing stocks as early as Nov. 1 is shown by Federal Reserve Bank reports from about three hundred lumber yards in the Southwest. The Nov. 1 stocks of these were 4.3 per cent lower than those held Nov. 1 last year, a condition believed typical of that of yard stocks throughout the country.

The pause in buying at this season serves to test market values, and apparently this year's test finds them firm. Prices are already considered to have reached their low point, and mills that have been unable to get business at present levels are shutting down. As a consequence, buyers show a tendency to accept current quotations on lumber to be shipped after inventories. A lot of this kind of future business has been accepted by the mills, but they hesitate to load up with it, as the general feeling among lumbermen is that prices will firm up as soon as active stocking up begins for the spring trade.

West Coast fir production is already reduced, and over the year end will probably be only about fifty per cent of its normal amount, while logging camps also plan extended shutdown.

sign people fighting the great World War Democracy. Not only was it absolutely essential to our salvation that they win this war, but we have greatly benefited thereby industrially, commercially and financially, while they have suffered beyond words. As a result, where business in this country today is 14 per cent above normal, business in most of these European countries is considerably below normal. This differential cannot always continue. Either they must come up or we must drop down. Ultimately there must be a balancing of accounts. In order that we may not drop down let us in this country strengthen those characteristics of integrity, industry, thrift and service by which we originally climbed." HEAVY DEMAND FOR RAILROAD STEEL

Inquiry for Freight Cars Is Largest in More Than a Year

Cleveland, Ohio.—Iron Trade Review says: Freight car inquiry has expanded in the past week to the largest total in more than a year. Now pending are 29,900 freight, 116 passenger and 125 miscellaneous cars, requiring probably 220,000 tons of finished steel and 100,000 tons of miscellaneous iron and steel products. Heightened activity also is manifest in track fastenings. The New York Central railroad placing about 25,000 tons, the Pennsylvania opening bids on 15,000 tons and a total of 35,000 tons being pending at Chicago.

This activity confronting the car-building industry rounds out a good week in finished steel. The daily rate of bookings thus far in December has exceeded the average for November about the bulk will be for delivery in the first quarter. Contracting for first quarter delivery is encountering no more resistance than could be expected in the present era of short buying. New business and releases on contract obligations by the automotive industry show improvement over last month.

Producers generally look for production and shipments to lose slightly more ground this month, as is customary in the holiday and pre-inventory season, but they sense that the downturn has largely spent itself. Steel corporation subsidiaries are operating at 74 to 75 per cent, while the average for the entire industry is about 70 per cent. Sentiment concerning the first quarter remains optimistic, as evidenced by the fact some producers are making concessions for December business but are holding firmly for first quarter.

November proves to have been a 79 per cent month in steel ingot production and in point of tonnage was the second best November since the war. The month's total output was 3,722,119 tons, compared with 3,584,166 last year, or a recession of 3.9 per cent from October. This compares with 3,909,900 tons and a daily rate of 156,116 tons for last November. It is almost 20 per cent greater than in November 1923.

Due to weakness in both the pig iron and the sheet markets, Iron Trade Review composite of fourteen leading iron and steel products this week is \$8.24, compared with \$8.16 last week and an average of \$8.43 for November.

Refuges in Macedonia have established there rose culture for the extraction of attar of roses and silk, hemp and sugar beet production.

An American firm has obtained from the Peruvian government a concession to build and operate for twenty-five years a twenty-two mile concrete toll road in the foothills of the Andes.

Discovery Of Vitamins Was Almost An Accident

Detroit.—(P)—White mice — two pages of them—pictured in a national farm journal several years ago, startled the readers of that strictly agricultural publication. What, asked the farmers, were pictures of mice, especially white mice, doing in a magazine devoted to livestock?

That was the first public announcement of the discovery by Dr. E. V. McCollum, now of Johns Hopkins university, of vitamins, the food elements which have since revolutionized all systems of nutrition. The white mice were to show farmers what might be accomplished with livestock by correct feeding. That new knowledge has now been applied to the diet of human beings.

WAS STUDYING NUTRITION
Dr. McCollum's theory originated, like many other such great discoveries, through what might almost be termed an accident.

"I was a young fellow, just out of Yale, and was, in 1907, working at the Farm Experiment Station at Madison, Wis.," he said. "I was trying to determine relative nutrition values of the then known food elements (proteins, carbohydrates, fats, minerals and oil).

"White mice, used in the experiments, were fed pure protein, carbohydrate, etc. But the animals did not thrive. Neither would a carbohydrate diet suffice, nor a straight diet of any pure element. Combinations of two, three, or all these elements

Total new business booked during the week was only eleven per cent less than the production. To date this year, production of fir mills has been exactly offset by orders and shipments. Southern pine production by large mills has also declined, but there are indications of a more decided curtailment by the non-reporting small mills. Pine orders for the week amounted to eighteen per cent less than the output, but shipments were only seven per cent less, so that stocks have not been replenished to any extent, shipments for the year to date having amounted to two per cent more than the production.

Southern hardwood production, which depends on lowland logging, is being reduced by winter rains. Business is a little slower, but for the week was only three per cent below production. Bookings to date this year have amounted to four per cent more than the output. Northern hardwood production is small, though mill stocks are no larger than they were at this time last year. Export business in hardwoods will be helped by the ending of the British coal strike, and industrial buying will receive considerable impetus from the winter automobile and furniture shows.

France has started an extensive development of the upper Rhine between Strasbourg and Bale for power and navigation purposes, the scheme to cost nearly \$10,000,000.

THE ADVENTURES OF ONYX AND FLORIAN
By Paul S. Powers

Onyx—But was a good idea ob yourn, big boy, hancin' out a sign in front of our room readin' "Fortune Tellers." We ought to make big cash money out ob dis. Look! Heah comes a gen'lman to git his fortune told. Howdydoo, Mistah. Does yo' crave fortune tellin'?

Florian—Enter de portals ob de future, stranger. De fust thing what yo' does is by one dollah down on de silken mat.

Client—You mean I am to deposit the sum of one dollar?

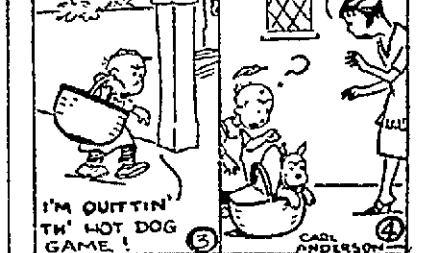

Onyx—Uh, huh. We thanks you. Now Ah will consult de ivory cubicles an' gently let 'em trip from mah fist. You heard 'em shake—you sav—'em rattle—now see 'em roll.

Florian—Do gods ob fortune say dat yo' is one dollah loser, Mistah. De ivory cubicals have done turned dere stummicks on seben! One dollah more.

Client—Put up another dollar? Onyx—no, sah. Lay it down. Ah will now let de fortune tellin' dicees ooze from mah hand. Elehen! De stars done say dat a dark man will cross yo' path, Mister. an' Ah is de man. One more rom-rom!

Florian—Uh, huh! One more silver lady. Shake, rattle, an' kill de engine! Seben! Now all you has to do, Mistah, is pay out another dollah!

Client—But say, when are you going to tell what my fortune is? Onyx—In jus' a few more roll, brother, we'll be able to tell what it was! By gawd! into de spots on de dicees Ah can see dat yo' is one more dollah poorer. Is dis all you got. Den we can tell yo' fortune. Count 'em up, Florian. Mistah, so' fortune was exactly the dollah! We bid you a fond howdydoo! Next gen'lman!

CARRIERS REPORT
DRIFTED ROADS IN
RURAL SECTIONS
Deep Snow on Sideroads
Makes Use of Automobile
Prohibitive

Special to Post-Crescent
New London—Country roads are not in very good condition, rural carriers returning to the city late Friday reported. In most places the use of a car is prohibitive due to deep snow on sideroads. Carriers have resorted to the use of cutters and even with this means of travel going was difficult on Friday.
High winds which blew all day have begun to drift in the tracks and through all carriers completed their routes Friday, some anticipated rough roads for the end of the week should the wind continue.
Streets are beginning to present a less difficult situation to the motorist in the downtown section. Snow plows were busy all week and snow has not been allowed to remain piled up against curbing. Loads are being piled high with snow and hauled away. Roads between here and Appleton have been passable at all times due to the efforts of the Inter-county operators. Borden company's huge truck with snow plow attached continued its work of clearing roads to outlying sections. Due to drifts it encountered Friday it took six hours to clear 2 1/2 miles of roadway near Black Creek.

The schedule for practice will be Monday and Tuesday evenings and on Thursday evenings, the regular team will play on Thursday afternoon from 4:30 to 6 o'clock. The Junior high school boys practice Thursday night, all high school boys will practice and on Friday from 4:30 to 6 o'clock the high school girls will play. Coach Polomski is hoping to arrange for inter class tournaments for girls.

URGE SHOPPERS TO MAIL
PARCELS BEFORE DEC. 15

New London—The 'mail early' edict so long dinned into the ears of shoppers is again being circulated through the medium of the local postoffice. This year, however, all shopping must cease and packages must be mailed even earlier than before due to the fact that Christmas mails on Saturday and that no mail will be delivered on Sunday. If your package is not delivered on Christmas it will not reach its destination until the following Monday.

Postal authorities at Washington have issued orders that there will be one Christmas delivery in the cities on that day and none in rural districts. The same authorities urge that all packages be mailed on or before Dec. 15.

TWO MEN MAROONED ON BADGER ISLAND

Give Up Hope of Rescues After Three Days and Three Nights; Had Little Food

—Ashland—(P)—Swimming ashore in icy water when their boat was shattered on the rocks of Badger Island, Joe LaCrosse and Frank Buttrick were rescued Saturday morning after three days and three nights with nothing but a package of stale hardtack which they found in a deserted fishing shack. Badger island, one of the outermost of the Apostle Islands, is uninhabited in winter.

The two men took a load of freight from Bayfield to Sand Island Wednesday. On the return trip their engine broke down, the boat drifted onto the rocks at the north end of Badger island, and the high wind battered it to pieces. They found matches and built signal fires which apparently were unnoticed by two passing ore boats. Eli LaPointe camp foreman on Manitowish Island finally noticed the fires and reached the men in a row boat. They had practically abandoned hope of rescue, they said.

STAAB WILL OPPOSE ACTION ON TAXES

Merchants Should Be Taxed on Incomes, Says Milwaukee Assemblyman

Milwaukee—(P)—Assemblyman Henry Staab of the Twelfth Milwaukee district announced Saturday that he will vigorously oppose placing into effect the recommendations of the income tax commission. Mr. Staab is opposed particularly to continuation of both the personal property and income taxes favoring the personal property offset which formerly prevailed.

"Merchants and manufacturers should be taxed on income and be encouraged in the production of personal property so that income may be derived," Mr. Staab declared.

"This tax in itself makes it impossible for Wisconsin industry to compete with other industries in other states he concluded."

FURNITURE DEALERS TO MEET IN OSHKOSH

The monthly meeting of the Fox River Valley Furniture Dealers association will be held at Hotel Althaus at Oshkosh Monday evening. A supper at 6:30 followed by the business session. A. W. Tretten, George Buesing and Harvey Kitten will attend the meeting from the Bretschneider Furniture Co., and several members of the Wisconsin Furniture Co. are expected to attend.

CHRISTMAS PROGRAM AT P-T SOCIETY MEETING

A short Christmas program will be given after the regular meeting of the Parent-Teacher association of the Roosevelt school at 7:45 Monday evening in the auditorium of the school. The Roosevelt Girls Glee club, under the direction of Miss Irene Bidwell, will sing a group of Christmas carols and the dramatic club, of which Miss Gladys Alger has charge will present a one act playlet, "A Merry Christmas." Miss Myrtle Rohm will read, "The Old Violinist's Christmas." Miss Rohm is a member of the dramatic club which is sponsored by Miss Edna Becker.

DEATHS

CHARLES H. FRATCHER

Word has been received here of the death of Charles H. Fratcher, 55, Green Bay, which occurred at noon Friday at his home. Mr. Fratcher was well known in Appleton having been car service inspector here for several years. He is survived by his widow.

TAX REFUND PLAN HIT IN CONGRESS

the protocol, with the American Legion, the American Chemical Society and the Synthetic Organic Chemical association most vigorous recently in denouncing its provisions.

At the same time, General Pershing, honorary president of the legion, is in favor of ratification. In a letter read to the senate by Chairman Borah he said he could not "think it possible that our country should fail to ratify" the protocol and that "scientific research may discover a gas so deadly that it will produce instant death" and make possible the wiping out of great masses of non-combatant men, women and children.

Abandonment of impeachment charges against Federal Judge George W. English of Illinois, was approved Saturday by the house on a standing vote. The vote was 167 to 15, and after it was announced members opposed to dropping the charges, demanded a formal roll call vote. Dismissal of the proceedings was sustained 256 to 22 on the roll call.

Voting against dismissing the impeachment charges were: Republicans, 10—Leck, Cooper, Frear, Lampert, Fevey, Schaefer, Schneider, Volger all of Wisconsin; James Michigan; LaGuardia, New York.

Democrats, 5—Prall and Black, New York; Hill, Washington; Howard, Nebraska; Almon Huddleston and Steagall, Alabama; Taylor, Colorado; Thomas, Oklahoma.

Farmer labor, 2—Wefald and Carrs, Minnesota; Independent, 14—Kvale, Minnesota.

Then contended during the debate that abandonment of the charges which included use of profanity from bench, irregular handling of bankruptcy cases and other misdemeanors would amount to a verdict of not guilty. The prosecutors of the case, however, held to the stand that no good could result from its continuation, inasmuch as the jurist had resigned on the eve of his trial by the senate.

MANY PROBLEMS

The senate and house each had several fights on its hands Saturday. The house had before it the \$259,236,000 interior department appropriation.

With the interior bill before it, the house had the second regular departmental supply measures of the session and one of which contains as many, if not more, provisions of local interest to a number of members as any other since, in addition to \$222,708,000 for Civil and Spanish war pensions, carries appropriations for a number of reclamation projects and other undertakings affecting various areas.

Members of the house military committee meanwhile are showing concern over the disclosure that the actual strength of the army has been reduced to 110,000 men instead of being held at 118,000 because of increased cost of rations. They are planning to question Secretary Dwight Davis in an effort to place the blame for development of such a situation under the current war department appropriations act which they held, was intended to provide for an army 118,000 strong.

THOMPSON TO RUN FOR MAYOR ON WET TICKET

Chicago—(P)—William Hale Thompson, who served two terms as the city's chief executive, again is a candidate for mayor in 1927, on a platform advocating repeal of the Volstead act. His announcement came at a political rally Friday night in response to 443,000 pledge cards piled 10 feet deep in front of the speaker's stand.

WIRELESS INVENTOR TO WED COUNTESS; REPORT

Rome—(P)—The newspaper Il Tevere Saturday says that William Marconi, famous wireless inventor, is to wed the Countess Maria Cristina Bozzi Scali, daughter of a papal count, as soon as the Holy Rota confirms the

COUNT SALM WANTS HIS SON, NOT CASH, HE TELLS REPORTER

New York—(P)—Count Ludwig Salm Hoogstraeten wants a job doing anything but manual labor, but reports that he has agreed to a \$500,000 settlement of his separation suit aroused his anger.

"Money? Money?" he stormed in his suite at the Hotel Gladstone when questioned about the reports. "I don't want money. I want my son. I am no gold-digger."

A court order allows the count to see his two-year-old son, Peter, two hours a day four days a week, but he did not see the boy Friday, one of the days for a visit.

"He has a bad cold, poor child," explained the count.

Count Salm and his attorneys deny that he has accepted a \$500,000 settlement or that he is divorcing for \$1,000,000. He has refused, it was testified in court, an offer from his father-in-law of \$12,000 a year to leave the United States and never attempt to communicate with his wife or son.

The count says "I won't even discuss these terrible stories. My only interest is in my son." He declares he is ready to settle in this country and go to work.

STOCK PRICE TREND IS STILL UPWARD

Easier Money and Favorable Trade News Responsible for Gains

New York—(P)—Heavy profit-taking by professional traders, following five consecutive days of advance prices, impeded the resumption of the upward movement in Saturday's brief session of the stock market. In the main, however, the selling was well absorbed, a number of issues selling 1 to 5 points above Friday's final quotations.

Weakness cropped out in some of the motors, Mack Trucks selling 2 points below Friday's quotations and General Motors offering fairly good resistance to selling pressure as did most of the other standard industrials. The closing was steady. Total sales approximated 750,000 shares.

New York—(P)—Stock prices continued to follow an upward course as trading was resumed Saturday. Initial gains of a point or more were established by Baldwin, E. S. Cast Iron Pipe and South Porto Rico Sugar while U. S. Steel, Lehigh Valley and Whites Copper opened fractionally higher. Continental Baking A jumped 5 points in response to the declaration of the usual dividend.

Easier money and favorable trade news and a revival of pool operations gave impetus to the early rise, which embraced a large number of leading dividend paying shares. Case Threshing Machine moved up 3 points in anticipation of a probable split up of the stock which would have attractive dividend basis for the new shares.

PERE MARQUETTE HIGHEST

Pere Marquette Railroad and South Porto Rico Sugar reached new high levels for the year. U. S. Industrial Alcohol was one of the few weak spots. Rallies of 7 points in French francs and of 15 points in Italian lire

FIRE RAZES MONTELLA HIGH SCHOOL FRIDAY

Montella—(P)—The Montella high school was destroyed by fire which was discovered at midnight Friday. The structure was discovered by Joseph Metzler and firemen were making headway in overcoming the fire when they exhausted the water supply in the reservoir of the Marquette Granite Co. Before they could change to another supply the fire got beyond control.

New York—(P)—Stock prices continued to follow an upward course as trading was resumed Saturday. Initial gains of a point or more were established by Baldwin, E. S. Cast Iron Pipe and South Porto Rico Sugar while U. S. Steel, Lehigh Valley and Whites Copper opened fractionally higher. Continental Baking A jumped 5 points in response to the declaration of the usual dividend.

Easier money and favorable trade news and a revival of pool operations gave impetus to the early rise, which embraced a large number of leading dividend paying shares. Case Threshing Machine moved up 3 points in anticipation of a probable split up of the stock which would have attractive dividend basis for the new shares.

FIRE RAZES MONTELLA HIGH SCHOOL FRIDAY

Montella—(P)—The Montella high school was destroyed by fire which was discovered at midnight Friday. The structure was discovered by Joseph Metzler and firemen were making headway in overcoming the fire when they exhausted the water supply in the reservoir of the Marquette Granite Co. Before they could change to another supply the fire got beyond control.

SHERIFF KEPT BUSY SERVING SUIT PAPERS

An unusually large number of civil papers have been served in the county during the past several days in an effort to clean up all work pending in the sheriff's office as expeditiously as possible before the holidays, it was reported Wednesday by Sheriff Peter G. Schwartz. An average of 10 papers a day have left the office recently, it was stated. Although side roads have offered some obstacles, little difficulty has been encountered in getting to points of service, the sheriff said.

"Kaukauna Lumber & Mfg. Co.—Kaukauna, Wis. will saw logs this winter. If you have any logs to be sawed bring them in."
